Original Sheet 1

S2. BASIC LOCAL EXCHANGE SERVICE

S2.1 GENERAL

- A. Basic local telephone service is provided by means of station, wire, switching and other facilities, and plant and equipment to enable the establishment of telephone communications between stations in the same or different exchanges at monthly rates applies under a group rate system. The facilities used to provide such basic local telephone service are also used in the furnishing of toll telephone services at rates applicable for such services.
- B. The basic rate area, exchange service area and zone rate areas for each exchange are on maps located in Section 26 of this Price List.
- C. Rates for Basic Local Exchange Service are related to the total access lines in service in that exchange plus total access lines in service in other exchanges within the local calling area of that exchange. The total of such access lines establishes the applicable rate group.
- D. The rates for service not specifically shown in this section are presented in other sections of this Price List.

S2.2 BASIC LOCAL SERVICE RATE GROUPS

- A. Local service rate groups are established as follows:

Rate Group Number	Total Access Lines in Local Calling Area
Rate Group I	0 - 1000
Rate Group II	1001 - 2500

Rate Group IV	5001 - 7500
Rate Group V	7501 - 10000
Rate Group VI	10001 - 20000
Rate Group VII	over 20,000

S2.3 REGROUPING

- A. The total access lines in the local calling area of each exchange shall be verified annually using the Company's official report of the telephones in service on June 30 of each year. This date shall be considered the annual study period.
- B. Whenever the total access lines in the local calling area increases or decreases to the extent that such exchange would fall into a different rate group from its existing rate group, a revised Price List sheet shall be filed for authorization to reclassify the exchange to the appropriate rate group.
- C. When extended area service enlarges the local calling area of any exchange so that the total access lines in the extended area exceed the upper limits of the present rate group, the exchange will be reclassified to the appropriate rate group.

S2.11 CONCESSION SERVICE

A. General

The classes of subscribers specified below are allowed the concessions indicated from the regular rates for individual line service.

Employees' Telephone Service is offered to all permanent employees at their residence when such service is provided by this Company. See Basic Local Exchange Rates S2.7.

A. Conditions

1. Employees' Telephone Service at their residence is available to all full time employees of the Company after the probationary period. This service is not available when the employee resides in a boarding and/or rooming house.
2. One primary listing may be provided in the name of the employee (except that the listing of a married woman may be in her or her husband's name).
3. Concessions are not allowed to any classes of subscribers from the regular rates for toll messages, semi-public telephone service,

S2. 11 Concession Service (Continued)

B. Conditions (Continued)

joint user service or construction charges. Also, concessions are not allowed to any classes of subscribers except employees from the regular rates for additional directory listings, miscellaneous equipment, touch-tone calling service or other facilities including any associated extension line mileage or from service connection.

4. Permanent Telephone Employees are allowed any of the available custom Calling features or CLASS features at no cost to the employees.
5. A concession of 25 percent from the regular business rate is allowed for corporations, associations and institutions or any branch thereof dependent upon voluntary contributions for their support, when such organizations, associations and institutions are exclusively engaged in charitable work as defined below, and when the telephone equipment is located in the administrative offices, institutional buildings or any other of the branches thereof.
 - a. A corporation, association, or institution or branch thereof engaged in charitable work shall be deemed to be exclusively engaged therein when a majority of its services are provided free of charge and when all compensation received for its services is wholly used in the execution of such work and does not result in any profits to the organization or any member thereof.

S2. BASIC LOCAL EXCHANGE SERVICE

S2. 11 Concession Service (Continued)

B. Conditions (Continued)

b. Of the corporations, associations and institutions thus engaged, those only are entitled to the concession whose principal "charitable work" is the furnishing of direct aid to the physical and comfort of human beings in the form of money, services or necessary commodities. Those corporations, associations and institutions whose principle work is the elevation or enlightenment of minds or morals, or the reformation, punishment or correction of acts, habits or mental conditions, or the enforcement of law, or the protection of rights, are not to be classes as charitable institutions.

6. Churches

A concession from the regular business rates is allowed to churches, provided the telephone is located in the church or church study and listed under the name of the church.

c. Rates

1. The charges for Employees' Telephone Service is 50% of the residence rate for exchange services and zone charges if applicable, computed to the next cent per line.
2. Service may be furnished by the Company at its expense in the residence of employees, when in its judgment, the interests of the Company in rendering continuous service to the public will be advanced, and shall be limited to employees who are frequently contacted at

c. Rates (Continued)

their residence outside of regular office hours, concerning affairs relating to the business of the Company. The rate for these employees is 100% concession.

3. Regular service charges applicable with the installation of Employees' Telephone service is hereby waived.
4. No concessions will be made to employees for message toll telephone service.
5. Charitable Institutions, Churches - 25% from Regular Business Rate

S2.12 LOCAL DIRECTORY ASSISTANCE SERVICE

See concurrence in section 3

S2.13 Dual Party Relay service

The company has agreed to absorb the charges for Dual Party Relay Service.

S2.14 Area Calling Service (ACS)

Subscriber Line Access Service Applicable to Ardmore, Elkmont, and New Market Exchanges

1. ACS extends the local calling area for all applicable exchanges to a 40 mile radius. For areas outside the established local calling area, including Extended Area Service (EAS), ACS provides seven digit usage sensitive local calling from a subscriber's home wire center to other

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 2
Original Sheet 10

S2. BASIC LOCAL EXCHANGE SERVICE

S2. 14 Area calling Service (ACS) (Continued)

participating company wire centers within a 40 mile radius, in the Huntsville, AL LATA, based on airline mileage. Usage sensitive charges for all usage of this service will be determined by the per minute rate for the proper rate band, in D.3. following, as determined by originating wire center to the terminating wire center airline miles.

2. In addition to the local calling described in D.1. preceding, if any terminating wire center in the terminating exchange is located within 40 airline miles of any wire center of the originating exchange, local calling will be provided from the originating exchange to the entire terminating exchange. Usage charges for this additional service will be determined by the proper rate band in D.3. following. If any wire center in the Company service area is within 40 miles of a terminating wire center, Area Calling Service will be provided from all Alabama wire centers to the entire terminating exchange.
3. The following usage rates are applicable for all local calls using this service and are based on airline mileage between wire centers. Airline mileage is determined by wire center coordinates as specified in the National Exchange Carrier Association F.C.C. Tariff No. 4.

S2.15 Lifeline Assistance Program

The Company, as part of its obligations as an Eligible Telecommunications Carrier, offers a low-income assistance program. This program, Lifeline Assistance, is offered under the terms and conditions provided below:

1. General

Lifeline Assistance is a non-transferable retail service offering for which qualifying low-income subscribers pay reduced charges, as provided for below. Lifeline Assistance enables eligible subscribers to pay reduced charges for voice telephony service that includes the following services: voice-grade access to the public switched network or its functional equivalent; local usage; access to emergency services; and toll limitation.

2. Regulations

Subscribers are eligible for Lifeline Assistance if:

- a) The subscriber's household income is at or below 135 percent of the Federal Poverty Guidelines, or
- b) The subscriber, or one or more of the subscriber's dependents or the subscriber's household, receives benefits from at least one of the following qualifying programs:

Medicaid;
Supplemental Nutrition Assistance Program (SNAP), formerly known as Food Stamps;
Supplemental Security Income (SSI);
Federal Public Housing Assistance;
Low-Income Home Energy Assistance Program (LIHEAP);
National School Lunch Program's free lunch program;
Temporary Assistance for Needy Families (TANF);

- c) Other eligibility requirements may be established by the Commission.
- d) Each subscriber to Lifeline Assistance must certify in writing to the Company, under penalty of perjury, that s/he receives benefits under a program outlined above, and must, on that same document, agree to notify the Company if s/he ceases to participate in the program(s). The certification form shall conform to the requirements described herein, and shall be made available upon request to any subscriber. The Company shall retain all such subscriber certifications in order to furnish proof of subscriber eligibility as may be required from time to time by Universal Service administrators.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 2
Original Sheet 15

S2.15 Lifeline Assistance Program

2. Regulations (Cont'd)

- e) A subscriber may elect at the time of subscription to Lifeline Assistance to receive toll limitation as part of Lifeline Assistance. "Toll limitation" is a service that allows a subscriber to elect not to allow the completion of outgoing toll calls from the subscriber's residence.
- f) Lifeline Assistance will not be disconnected for non-payment of toll charges, unless the Company first demonstrates to the Commission that the Company would incur substantial costs, that the Company offers toll limitation without charge, and that telephone subscribership among low-income subscribers in the Company's service area is greater than or equal to the national subscribership rate for low-income consumers. For purposes of this paragraph, a "low-income consumer" is one with an income below the poverty level for a family of four residing in Alabama or Tennessee. The Company shall follow all applicable notice provisions as established, from time to time, by the Commission, as part of the waiver process, and to implement a waiver, if granted. The Company may reapply for the waiver as necessary.
- g) The Company may not collect a service deposit in order to initiate Lifeline Assistance if the qualifying low-income subscriber voluntarily elects toll blocking from the Company, where available or if the qualifying low-income subscriber elects a calling plan that does not distinguish between toll and non-toll calls in its pricing. If toll blocking is unavailable, then the Company may charge a service deposit.
- h) The Lifeline credit available to an eligible customer is equal to the total of federal support as established by the Federal Communications Commission. The amount of credit will not exceed the charge for local service, which includes the access line, the Subscriber Line Charge and local usage.
- i) The Company shall apply the baseline payments received by the administrator of the federal Lifeline Assistance program to waive the qualifying customer's federal Subscriber Line Charge. The Company shall apply any additional federal support amount to the qualifying customer's basic local exchange service rate.
- j) To be eligible for Lifeline Assistance, qualifying customers must subscribe to a flat-rate basic local exchange service offering that is made available in the Company's service area.
- k) Partial payments that are received from Lifeline customers shall first be applied to local service charges and then to any outstanding toll charges.

S6. SERVICE CONNECTION CHARGES

S6.1 GENERAL

- A. Service charges are the nonrecurring charge or charges applied to the services ordered or connected into service at the customer's request. These include charges for initial commencement of service, charges, restoration, and rearranging of service or facilities.
- B. Service charges may be paid under one of the following plans, at the option of the subscriber.
 - 1. Plan 1 - Payment in full at the time service is requested.
 - 2. Plan 2 - Payment in full, on first month's billing.
- c. In all cases where special or unusual construction or installation is required, such charges are in addition to the prescribed service charges.

S6. SERVICE CONNECTION CHARGES

S6.2 Definitions

- A. Service Order Work Charge: The charge that applies for work performed by the Company in connection with the receiving, recording and processing of customer requests for service.
 - 1. Primary Service Order: The service order charge associated with the establishment of service.
 - 2. Secondary Service Order: The service order charge associated with subsequent requests concerning telephone service,
- B. Central Office Work Charge: The charge applied to work associated with testing and connection functions required within the central office.
- C. Access Line Work Charge: The charge applied to work associated with making and changing connections on the circuit between the serving central office up to and including the protector on the customer's premises.
- D. Premises Visit: The charge based on labor time and miscellaneous materials required to extend the network interface beyond the point of minimum penetration. This charge is only applicable when the installation is performed at the request of the customer and where the telephone company visits the customer's premises only for the purpose of the network installation.

S6. SERVICE CONNECTION CHARGES

S6.3 APPLICATION OF SERVICE CHARGES

A. General

1. Service charges as used herein and in other sections of this Price List are applicable to the ordering, connecting, moving, changing, rearranging and furnishing of telephone service and other telephone facilities and service. The charges apply as follows except as provided hereinafter in other sections of this Price List.
2. Service order charges are applicable to the following services:
 - a. All Classes of Basic Local Exchange Service
 - b. Coin Telephone service
 - c. Telephone Answering Service
 - d. Mobile Telephone Service
 - e. Private Branch Exchange Service
 - f. Key and Push Button Service
 - g. Wide Area Telecommunications Service
 - h. Directory Listings
 - i. Miscellaneous Service Arrangement and Auxiliary Equipment
3. Where the service desired necessitates the use of more than one item of service subject to the service charge, the total charge is the sum of the separate service charges for each item of service furnished except as hereinafter provided.

S6, SERVICE CONNECTION CHARGES

S6. 3 APPLICATION OF SERVICE CHARGES (Cont'd.)

A. General

4. When service is re-established at a location which has been destroyed or made untenable by fire, wind or flood, service charges for connection, move or change do not apply when service is re-established within a reasonable time. If the subscriber desires service at a new location for a temporary period, service charges for connection will apply for the establishment of service at a temporary location but no service charge will apply when service is reestablished at the former location.
5. Service charges may be paid at the time of application of service or as otherwise provided herein.
6. Where service is established at a concession rate, except employees' concessions, no concession is allowed from the regular service charges.
7. Service charges apply to changing or adding touchtone service, custom calling features, number changes or any other miscellaneous service as specified in this Price List.

S7. MISCELLANEOUS SERVICE ARRANGEMENTS

S7.2 CUSTOM CALLING SERVICES

A. Definitions

1. Call Waiting - This feature signals a subscriber talking on his line that another call has been placed to his line. The subscriber may place either call on hold while talking to the other.
2. Call Forwarding -With this feature all incoming calls are forwarded to another telephone number. This arrangement may be activated by dialing a code and the telephone number of the service to which calls are to be forwarded and is deactivated by dialing another number. The Call Forwarding customer is responsible for the payment of any applicable message unit charge or direct distance dialed message toll charge for each call between his Call Forwarding telephone and the telephone to which the call is being forwarded. The charge applies to all calls that are answered at the telephone to which the calls are being forwarded, including person-to-person and collect calls even though they may not be accepted at the answering service.
3. Three-Way Calling- This feature enables a third party to be added to a two-way conversation without operator assistance.
4. Speed Calling - This feature permits up to eight (8) predesignated telephone numbers to be accessed by dialing a one-digit code. Up to 30 predesignated telephone numbers can be accessed by a two-digit code.

87. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE

This service is a Flex-Price and is regulated under terms and conditions as described in this Price List.

1. General

- A. ONETOUCH service is a group of central office call management features offered in addition to basic telephone service, ONETOUCH service consists of the following features:

2. Definitions of Feature Offerings

A. Call Return

This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

Where facilities permit, upon activation of the feature, the customer will receive a voice announcement stating that Call Return has been accessed. In addition, the announcement will provide the Directory Number (DN) of the last incoming call. In some locations, the date and time of receipt of the call will also be provided. The Call Return user will then be prompted to enter an additional digit to continue with the feature activation, or to hang up to abort the activation.

This feature is not available on operator handled calls. In connection with Call Return, the Company will deliver all numbers, subject to

GENERAL SUBSCRIBER SERVICES PRICE LIST

ARDMORE TELEPHONE COMPANY

SECTION 7
ORIGINAL SHEET 21

S7. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

A. Call Return (Cont'd)

technical limitations, including telephone numbers associated with Non-Published Listing Service.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for voice-back.

If the incoming call originates from a multi-line hunt group, the telephone number transmitted and voiced back will always be the main number of the hunt group, unless, facilities permitting, the telephone numbers are TN identified within the group.

In some locations, due to technological limitations, Call Return, must be purchased with Repeat Dialing.

B. Repeat Dialing

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed.

If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place the call. When

SECTION 7
ORIGINAL SHEET 22

S7. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

B. Repeat Dialing (Cont'd)

the customer picks up the telephone the call will automatically be placed.

In some locations, due to technological limitations, Repeat Dialing, must be purchased with Call Return.

c. Call Selector

Call Selector provides a distinctive ringing pattern to the subscribing customer for up to eight specific telephone numbers.

The customer creates a screening list of up to eight telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short, long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting and a call is received from a telephone number on the Call Selector screening list while the line is in use, the Call Waiting ton .will also be distinctive.

When a telephone number on the Call Selector screening list also appears on the Preferred Call Forwarding list, the Preferred Call Forwarding will take precedence. Likewise, when the same number is shown on the Call Block list, the call will be blocked.

GENERAL SUBSCRIBER SERVICES PRICE LIST

ARDMORE TELEPHONE COMPANY

SECTION 7
ORIGINAL SHEET 23

S7. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

c. Call Selector (Cont'd)

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number, that represents all the lines in a collection of lines, such as multiline hunt groups.

D. Preferred Call Forwarding

Preferred Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to eight numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

If the customer also subscribes to Call Block and the same telephone number is entered on both screening lists, the Call Block feature must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or a Telephone Number identified number that represents all the lines in a collection of lines such as multiline hunt groups.

E. Call Block

This feature provides the customer the ability to prevent incoming calls from up to eight different telephone numbers.

2. Definitions of Feature Offerings (Cont'd)

E. Call Block (Cont'd)

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive his call at this time.

If the customer also subscribes to Preferred Call Forwarding and/or Call Selector and the same telephone numbers appear on those screening lists, Call Block will take precedence.

This feature will not work if the incoming call is from a telephone number in a multiline hunt group unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

F. Call Tracing

Call Tracing enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the Company's Security Department indicating the calling number, the time the trace was activated, and in some locations, the time the offending call was received. The customer using this feature would be required to contact the Law Enforcement Agency for further action. The customer is not provided the traced number.

SECTION 7
ORIGINAL SHEET 25

S7. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

F. Call Tracing (Cont'd)

Only calls from within the same ONETOUCH capable area are traceable using: call tracing.

This feature will not work if the incoming call is from a telephone number in a multiline hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

In some locations, if the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Call Tracing will not record the correct number.

G. Caller ID - Basic (Number Delivery)

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID - Basic is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any customer subscribing to Caller ID - Basic will be responsible for the provision of a display which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The company assumes no liability and will be held harmless for any incompatibility of

G. Caller ID - Basic (Number Delivery) (Cont'd)

this equipment to perform satisfactorily with the network features described herein.

If the incoming call is from a caller who subscribes to Teen Line service, the telephone number will always be the main number rather than the service number.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for display.

If the incoming call originates from a multi-line hunt group, the telephone number transmitted will always be the main number of the hunt group, unless, facilities permitting, the lines are Directory Number (DN) identified within the group.

If the incoming call is from a caller who subscribes to and/or has activated Calling Number Delivery Blocking as described in J. following, the calling number will not be delivered.

Calling party telephone number information via Caller ID - Basic is not available on operator handled calls. .

H. Caller ID - Deluxe (Name and Number Delivery)

This feature enables the customer to view on a display unit the calling party Directory Name

(Cont'd)

and Directory Number (DN) on incoming telephone calls.

A maximum of 15 characters is allowed for transmission for the calling party Directory Name.

When caller ID - Deluxe is activated on a customer's line, the calling party Directory Name and Directory Number on incoming calls will be displayed on the called CPE during the first long silent interval of the ringing cycle. The date and time of the call is also transmitted to the Caller ID - Deluxe customer.

Caller ID - Deluxe also includes Anonymous Call Rejection (ACR). This feature allows customers to automatically reject incoming calls when the call originates from a telephone number which has invoked a blocking feature that prevents the delivery of their number to the called party. When ACR is activated on the customer's line and an incoming call marked private is received, the called party's telephone will not ring. The call will be routed to an announcement and subsequently terminated. The announcement informs the calling party that the person he or she is trying to reach will not accept the call as long as the calling number is not delivered. Incoming calls are checked for acceptance or rejection by Anonymous Call Rejection regardless of the current state of the ACR customer's line (e.g., off hook or idle).

H. Caller ID - Deluxe (Name and Number Delivery)

(Cont'd)

Subsequent to establishment of Caller ID -Deluxe, ACR can be activated and deactivated at the customer's discretion through the use of preassigned feature access codes.

Any customer subscribing to Caller ID - Deluxe will be responsible for the provision of a display device which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

If the incoming call originates from a customer provided or company Public Telephone or a Company provided Semi-Public Telephone, the name information transmitted will always be "Pay Phone."

If the incoming call originates from a multi-line hunt group, the name and number transmitted will always be the main listed directory name and number of the hunt group unless, facilities permitting the lines are Directory Number (DN) identified within the group. If the incoming call is from a caller served by a PBX, only the main listed name and number of the PBX will be transmitted and available for display.

S7. MISCELLANEOUS SERVICE

S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

J. Calling Number Delivery Blocking- Permanent

This feature, when established on a customer's line, enables subscribers to prevent transmission of their Directory Number on all outgoing calls placed from the customer's line. Suppression of the Directory Number does not inhibit delivery of the Directory Name to the called party. Calling Number Delivery Blocking- Permanent is established and/or removed from the customer's line via a service order. It is in effect on a continuous basis but can be deactivated on a per call basis.

K. Calling Number Delivery Blocking -Per Call

This feature allows a customer to temporarily prevent the transmission of that customer's Directory Number and/or Directory Name and thus control their availability to the called party.

The transmission of the Directory Number and/or Directory Name can be temporarily prevented on an as needed basis by dialing a preassigned access code prior to making a call. This action must be repeated each time a call is made to prevent the transmission of the Directory Number and/or Directory Name.

S7. MISCELLANEOUS

SERVICE S7.12 ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

L. Telemarketer Call Screening (TCS)

The Telemarketer Call Screening (TCS) service intercepts calls that are delivered as "unknown" to the subscriber's line. The service plays an announcement stating, "The number you have reached does not accept calls from Telemarketers. If you are a Telemarketer, please add this number to your "Do Not Call" list and hang up now. Otherwise, please press 1 or stay on the line." TCS screens most telemarketing calls since telemarketers typically connect with MF trunks and thus are unidentified in the SS network.

M. Do Not Disturb

Do Not Disturb allows a subscriber to place their telephone in an apparent busy condition to all incoming calls without affecting the outgoing features of the line (i.e., calls and feature activations can be made). The feature is set up and removed as required by the subscriber. Special Busy Tone is returned if a line in a Do Not Disturb (DND) condition is called.

N, Wake-Up Service

This feature lets you dial a special code that allows you to program a wake-up time by a 24-hour clock. The telephone will then ring you back at the preprogrammed time.

3. The following limitations apply:

- A. ONETOUCH service is provided subject to the availability of facilities. Additionally, the features described will only operate on calls originating and terminating within ONETOUCH service equipped offices. Also, feature screening lists can only contain telephone numbers of subscribers served out of service equipped offices.
- B. ONETOUCH service is available to single party and multi-line residence and business customers who have rotary or Touch-Tone service. Caller ID-Basic (name delivery or number delivery) or Caller ID-Deluxe are not available for lines equipped with Rotary (Grouping) arrangements.
- C. Caller ID- Basic (name delivery) is available to single line, non-grouped residence and business customers where facilities permit.
- D. The Company liability arising out of the provision of any ONETOUCH service feature, including but not limited to the delivery and for names is limited.
- E. Calling Number Delivery Blocking - Permanent is available upon request, facilities permitting, to the following customer groups:
 - a. Agencies - established shelters of private, non-profit and publicly funded domestic violence intervention agencies and federal, state and local law enforcement agencies.

S8. COIN TELEPHONE SERVICE

S8.1 PUBLIC TELEPHONE SERVICE

A. General

Public telephone service will be furnished on the basis of at least one (1) company-owned telephone per exchange.

B. Conditions

1. In each exchange, the telephone company shall provide at least one public pay telephone available to the public at all hours, prominently located and properly maintained and equipped.
2. The telephone company shall make a reasonable effort to maintain at each company-owned, public pay telephone station a current copy of the telephone directory for that exchange. Each instrument shall have all operating instructions posted thereon including, but not limited to, the access code for long distance dialing, directory assistance, and emergency or "911" numbers.
3. Each pay telephone station shall provide coin-free access to the toll operator or emergency numbers.
4. All service provided over customer-owned, coin-operated telephones shall be in accordance with the Orders issued under Dockets 19225, 19278 and 20326 by the Commission and any further orders issued pertaining thereto.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 1

§10. IntraLATA Private Line Service

§10.1 Undertaking of the Company

A. Provision of Facilities

The Company undertakes to maintain and repair the facilities which it furnishes. The Customer or authorized user may not rearrange, disconnect, remove or attempt to repair any equipment installed by the Company except upon the written consent of the Company.

B. Work Performed Outside Regular Working Hours

The rates and charges specified in this Price List contemplate that work will be performed during regular working hours and that work once begun will not be interrupted by the customer. If, at the request of the customer, work is performed outside of regular working hours, either to meet his Convenience or because the time allowed is insufficient to permit completion during regular hours or if the customer interrupts work which has begun, the customer may be required to pay any additional costs incurred.

C. Scope

1. IntraLATA Private Line Service is the furnishing of the Company facilities for communication between specified locations 24 hours daily seven days per week. Facilities may be those of the company only or those of the Company and connecting companies.
2. The Company does not undertake to transmit messages.
3. IntraLATA Private Line Services not specified in this Price List will be provided on an Individual Case Basis (ICB).
4. IntraLATA Private Line Service is available to end user customers only. BellSouth, IXCs, competitive local exchange carriers and other carriers must order under the Company's Special Access Price List.
5. Provisions of Private Line Services referenced in this Section are subject to availability of Company facilities, equipment, and technical capabilities, and, as applicable any limitations and operating characteristics of equipment and technical capabilities.

D. Liability

1. The liability of the Company for damages arising out of mistakes, omissions, interruptions, preemptions, delays or errors or defects in transmissions occurring in the course of furnishing service and not caused by the negligence of the customers, or the Company in failing to maintain proper standards of maintenance and operation and to exercise reasonable supervision shall in no event exceed an amount equivalent to the proportionate charge to the customer or the period of service during which such mistake, omission, interruption, preemption, delay, or error or defects in transmission occurs.

Ardmore Telephone Company, Inc.

Section 10
Original Page 2

§10. IntraLATA Private Line Service

§10.1 Undertaking of the Company (Continued)

§10.1.D. Liability (Continued)

2. The Company shall be identified and saved harmless by the customer against:
 - a. Claims for libel, slander and infringement of copyright arising from the material transmitted over the facilities;
 - b. Claims for infringement of patents arising from, combining with, or using in connection with, facilities furnished by the Company, apparatus and systems of the customer; and
 - c. All other claims arising out of any act or omission of the customer in connection with the facilities provided by the Company.
3. The Company is not liable for any act or omission of the other company or companies furnishing a portion of the service.
4. The Company does not guarantee or make any warranty with respect to equipment provided for use in an explosive atmosphere. The customer indemnifies and holds the Company harmless from any and all loss, claims, demands, suits, or other action, or any liability whatsoever, where suffered, made, instituted or asserted by the customer or by any other party or person, or any personal injury to or death of any person or persons, and for any loss, damage or destruction of any property, whether owned by the customer or others, caused or claimed to have been caused directly or indirectly by the installation, operation, failure to operate, maintenance, removal, presence, condition, location, or use of said equipment so provided.
5. The Company may require each customer to sign an agreement for the furnishing of such equipment as a condition precedent to the furnishing of such equipment.
6. The company is not liable for any defacement of or damage to the premises of a customer resulting from the furnishing of channel facilities or the attachment of the instruments, apparatus and associated wiring furnished by the Company on such premises or by the installation or removal thereof, when such defacement or damage is not the result of negligence of the agents or employees of the Company.
7. The Company shall be under no liability for the quality or defects in voice recordings where Company combined transmitting and recording equipment is utilized in making such recordings.

§10. IntraLATA Private Line Service

§10.1 Undertaking of the Company (Continued)

§10.1.D. Liability (Continued)

8. Unauthorized Computer Intrusion

The Company's liability, if any, for its willful misconduct is not limited by this section of the Price List. With respect to any other claim or suit by a subscriber, common carrier, reseller, or any other party for damages caused by, or associated with, any unauthorized computer intrusion, including but not limited to the input of damaging information such as a virus, time bomb, any unauthorized access, interference, alteration, destruction, theft of, or tampering with, a Company computer, switch, data, database, software, information, network or other similar system, the Company's liability, if any, shall not exceed an amount equal to the proportionate charge by the Company for the service for the period during which the service provided by the Company was affected or so utilized.

9. Transmission of Data

The Company shall not be held liable for any damage, harm or loss of data caused by the subscriber using the Company's voice-grade telephone access lines and/or facilities for the transmission of data. The Company's liability shall be limited to errors or damages to the transmission of voice messages over these facilities, and the liability shall be limited to an amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

10. Errors or Damages Caused by System Date Limitations

The Company's liability for errors or damage resulting from the inability of the Company's *systems* to process dates, such as the Year 2000, shall be limited to the amount equal to the proportionate amount of the Company's billing for the period of service during which the errors or damages occur.

11. Unauthorized Devices

The Company shall not be held liable or responsible for any damage or harm that may occur as the result of unauthorized devices or the failure of the Company to detect unauthorized devices on the subscriber's line.

§10. IntraLATA Private Line Service

§10.1 Undertaking of the Company (Continued)

E. Provision of Facilities

The Company or the Company and other carriers will provide all facilities necessary for private line service to the demarcation point at a customer premises, except that, the customer or authorized user may provide his own terminal equipment or communications systems for use with such service as specified in

1 through 3. following or as otherwise specified hereinafter.

1. Where the customer or authorized user provides his own communications system, or terminal equipment the customer or user shall provide all station apparatus and associated channels which are a part of the system and which are located on the same customer's premises as the system.
2. When a private line is used for data transmission which requires terminal equipment (data sets), such data sets may be provided by the customer or authorized user except that the Company shall furnish all data sets located in the Company's central offices. Where the customer or authorized user elects to provide his own data set(s) on a given private line, it shall be the responsibility of the customer or authorized user to ensure the continuing compatibility of such data set(s) with the facilities furnished by the Company.
3. When a private line is used for transmission purposes other than voice, it is contemplated that the customer or authorized user will provide the station equipment for such other purposes.

§10. IntraLATA Private Line Service

§10.6 DS1 Service

A. General

1. DS1 service is furnished for Private Line IntraLATA communications by the Company.
2. DS1 service is a service for the transmission of digital signals only and using only digital transmission facilities.
3. DS1 service provides for the simultaneous two-way transmission of isochronous digital signals at DS1 speeds of 1.544 Mbps where facilities are available.
4. To insure satisfactory operation, the terminal equipment provided by the customer shall be compatible with the DS1 1.544 Mbps channel facility provided by the Company.
5. Unless specified following, the regulations for DS1 service specified herein apply in addition to the regulations set forth in the General Rules and Regulations.
6. The rates specified for DS1 service following contemplate the provision of a digital quality facility over existing interoffice carrier equipment and/or exchange cable facilities compatible with this service. If such equipment, new facilities or changes to existing facilities are required for the provision of this service, a special construction charge based on the cost incurred to make the changes will apply in addition to the rates for DS1 service.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 6

§10. IntraLATA Private Line Service

§10.2 DSI Service (Continued)

B. Description of Service

1. DSI service is furnished for the simultaneous two-way transmission of serial, Bipolar Return-to-Zero, isochronous digital signals, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format, at a speed of DS 1/1.544 Mbps between two-points located within a LATA.
2. DSI service is available on a month-to-month basis or under variable rates based on lengths of 12 months, 24 months, or 36 months, under conditions specified in this Price List.
3. The Company does not represent its DSI service as adapted for such connections, and shall not be responsible for the through transmission of signals or the quality Of such transmission on such connections.
4. A Channel Service Unit (CSU) or appropriate Termination Equipment (TE) provided by the customer is required at a customer's or authorized user's premises to perform such functions as proper termination of service, amplification, signal shaping, and remote loop-back.
5. The design, maintenance, and operation of DS 1 service contemplates communications originating and terminating as (1) a customer premises to customer premises channel via the Company's Serving Wire Center (SWC) and/or through remote SWC's; (2) a customer premises to the Serving Wire Center- and/or to remote SWC's -partial channel (link); or (3) a Central Office to Central Office (interoffice) partial channel (link); or (4) between SWC's of this Company and a central office of a connecting company within the LATA.

C. Definitions

Channel Service Unit - The term "Channel Service Unit" (CSU) denotes equipment provided by the Customer to terminate a digital facility on the customer's or user's premises. Channelization is an

optional channel service package to activate voice and data facilities.

Digital Local Channel -The term "Digital Local Channel" denotes a path for DS 1 service furnished from the demarcation point on the customer's premises to their Serving Wire Center ("SWC").

DSI -This denotes a channel service expressed in its digitally encoded data bit rate in accordance with the North American hierarchy of digital signal levels. It has a 1.544 Mbps transmission data rate, and provides for the two-way simultaneous transmission of isochronous timed, Bipolar Return-to-Zero (BRTZ) bit stream format, except where intentional bipolar violations are introduced by Bipolar with 8 Zero Substitution (B8ZS) format. Unframed signal formats are not permitted or compatible with Company equipment.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 7

§10. IntraLATA Private Line Service

§10.6 DS1 Service (Continued)

C. Definitions (Continued)

Interoffice Channel -The term "Interoffice Channel" denotes a path (or paths) for digital transmission between Company SWC within the LATA, or between Company SWCs and other ILEC serving wire centers within the LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Superframe Format ("SF")- Provision of DS1 without Clear Channel Capability

Extended Superframe Format ("EFT") -Provision of DS1 with Clear Channel Capability.

D. Application of Rates

- I. Digital Local Channels furnished between a Serving Wire Center and the customer's premises will be charged at rates set forth for Digital Local Channels under Rates and Charges.
2. Interoffice Channels furnished between Central Offices will be charged at rates based on airline distance between the Central Offices.
3. DS1 service is available on a month-to-month basis or under variable rate periods with rates based on lengths of 12 months, 24 months, or 36 months.
4. A Termination Liability Charge is applicable at the date of termination. The applicable charge is dependent on the contract period subscribed to and will be equal to the number of months remaining in the contract times the monthly rate provided under the contract.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 8

§10. IntraLATA Private Line Service

§10.6 DS1 Service (Continued)

E. Responsibility of the Company

- I. The responsibility of the Company shall be limited to the furnishings and maintenance of DS 1 service to that point on the customer's premises where provision is made for the connection of customer-provided equipment. If the customer requires a different location in the same building, it can be provided under the Premises Network Wiring Charge found in this Price List.
2. The Company shall not be responsible for installation, operation, or maintenance of any terminal equipment or communications systems provided by a customer. DS 1 service is not represented as adapted for the use of such equipment or system. Where such equipment or system is connected to Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for DS 1 service and to the maintenance and operation in a manner proper for such digital service: The company shall not be liable for:
 - the through transmission of signals generated by such equipment or system, or for the quality of, or defects in, such transmission or
 - the reception of signals by such equipment or systems, or
 - the damage to terminal equipment or communications systems provided by a customer or authorized user due to testing.
3. The Company shall not be responsible to the customer if changes in any of the facilities, operations, or procedures of the Company utilized in the provision of DS 1 service render any facilities or equipment provided by a customer obsolete, or require modification or alteration of such equipment or system or otherwise affects its use or performance.
4. The Company undertakes to maintain and repair the facilities which it furnishes. The customer may not rearrange, disconnect, remove, or attempt to repair any equipment installed by the Company without prior written consent of the Company.

§10. IntraLATA Private Line Service

§10.2 DSI Service (Continued)

F. Responsibility of the Customer

- I. The customer is responsible for installing and testing his premises equipment or facilities to insure that when they are connected with DS 1 service such equipment or facilities are operating properly.
2. The operating characteristics of the customer's premises equipment or facilities shall be such as not to interfere with any of the services offered by the Company. Such use is subject to the further provisions that the equipment provided by a customer does not: endanger the safety of Company employees or the public; damage, require change in or alteration of the equipment or other facilities of the company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Company's facilities or otherwise injure the public in its use of the Company's services. Upon notice from the Company that the equipment provided by a customer is causing or is likely to cause such hazard or interference the customer shall take such steps as shall be necessary to remove or prevent such hazard or interference.
3. The customer's responsibility shall include cooperative testing with the Company as may be necessary. Where regeneration and/or equalization adjustments or changes may be required to compensate for rearrangements and/or changes in outside plant facilities, the customer will be responsible for all expenses incurred in changes to his premises equipment.
4. The customer shall be responsible for payment of a Trouble Determination Charge as set forth in this Price List for visits by the Company to the premises of the customer where the service difficulty or trouble report results from the use of equipment or facilities provided by the customer.

GENERAL SUBSCRIBER SERVICES PRICE LIST

G. Rates and Charges

I. DS1 Local Channel is furnished between a Serving Wire Center and the customer's premises. The local channel rate includes the central office trunk termination (COTT).

a. DS1 Local Channel, each DS1
With COTT

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
Each DS1	\$300.00	\$335.00	279.00	261.00	244.00

b. Channelization (Optional)

Per Month

DS1 to Voice's \$312.00

2. Interoffice Channels are furnished between Central Offices. Rates are based on the airline distance between Central Offices.

a. Interoffice Channel, each channel

	Nonrecurring Charge	Month to Month	12 Months	24 Months	36 Months
(1) Fixed Monthly rate	\$310.00	75.00	65.00	60.00	55.00
(2) Each airline mile, or Fraction thereof		21.00	16.00	14.00	12.00

3. Clear Channel Capability (CCC).

a. Clear Channel Capability is furnished on a per DS1 service channel basis.

b. Clear Channel Capability (CCC) is an arrangement that alters a DS1/1.5444 Mbps signal with unconstrained information bits, to meet pulse density requirements outlined in Technical Reference 7352.5. This will allow a customer to transport an all zero octet over a DS1 service channel providing an available combined maximum 1.536 Mbps data rate. This arrangement requires the customer signal at the channel interface to conform to Bipolar with 8 Zero Substitution (B8ZS) line code as described in Technical Reference 7352.5.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Original Page 11

§10. IntraLATA Private Line Service

§10.2 DSI Service (Continued)

G. Rates and Charges (continued)

3. Clear Channel Capability (continued)

- c. CCC is provided on DS I service channels between two customer designated premises, from a customer premises to their Serving wire Center or Node Central Office and/or to a remote Serving Wire Center or Node Central Office, and from a central office to a central office, and is subject to the availability facilities. This optional feature may be ordered at the same time the DS I service channel is ordered, or it may be ordered as an additional feature of an existing DS I service channel.
- d. CCC is provided in an Extended Superframe Format. When CCC is ordered at time of DSI installation, there is no charge for CCC. Charges apply when CCC is added via Extended Superframe Format or removed via Superframe Format.

Per DSI service channel optioned as

	Monthly Rate	Nonrecurring Charge Initial	Subsequent
(a) Superframe Format (SF)	\$-	\$-	\$600.00
(b) Extended Superframe Format (ESF)			600.00

4. Move Charge

A move charge, per DSI service channel, applies for each DSI Local Channel moved to a new location in the same building. This move charge is equal to the DSI Local Loop Channel Nonrecurring Charge, Service Change Charge -Inside Moves, plus Premise Visit Charges.

A move charge, per DS 1 service channel, applies for each DS 1 service moved to a new location in the Company territory within the same state. This move charge is equal to the sum of all nonrecurring charges applicable to a new DS 1 service channel installation at the new location.

5. Service Change Charges

- a. Service Establishment Charges are applicable, for each DSI service channel ordered, for receiving and recording information and/or for taking action in connection with a customer's request, and processing the necessary data. These charges include engineering design, common centralized testing, and coordination.
- b. Service Change Charges are applicable for receiving and recording information and/or taking action in connection with a customer's Inside Move or transfer of service responsibility request, for processing the necessary data on an-existing DS 1 service channel. A Service Change Charge is applicable for each DSI service channel associated with the customer request (in lieu of a Service Establishment Charge).

Section 10
Original Page 13

§10. IntraLATA Private Line Service

§10.3 Digital Data Services

A. General

Digital Data Services are transmission services designed to transmit data in digital form end to end over Digital facilities.

B. Description of Services

Digital Data Services are capable of the simultaneous two-way transmission of digital signals at synchronous speeds of 2.4, 4.8, 9.6, 19.2, 56 or 64 Kbps between points within a LATA.

C. Definitions

Digital Local Channel-denotes a path for services furnished from the serving wire center to the demarcation point on the customer's premises.

Digital Interoffice Channel - denotes a path for services between the serving wire center and its primary node central office, or between node central offices, within a LATA. An interoffice channel may be furnished in such a manner as the Company may elect.

Multipoint Service- denotes a service which provides communications capability between more than 2 private line locations by means of bridging or hubbing arrangement.

Secondary Channel Capability- denotes the offering of a companion digital transmission capability over the same physical facility as the primary channel at a lower bit rate. Terminal equipment required to support secondary channel capability must be provided by the customer.

D. Rates and Changes

1. Digital Local Channel is furnished between a Serving Wire Center and the customer's premises. The Digital Local Channel Charges apply per local Channel and include a Channel Termination at the Company's Central Office.

		Nonrecurring Charge		Month to Month	12 Months	24 Months
		First	Add'l			
a.	2.4 Kbps	\$414.00	\$271.00	\$ 65.00	\$58.75	\$56.50
b.	4.8 Kbps	414.00	271.00	65.00	58.75	56.50
c.	9.6 Kbps	414.00	271.00	65.00	58.75	56.50
d.	19.2 Kbps	414.00	271.00	65.00	58.75	56.50
e.	56.0 Kbps	459.00	311.00	105.00	93.00	86.00
f.	64.0 Kbps	499.00	351.00	105.00	93.00	86.00

2. A Digital Data Interoffice Channel is furnished between a serving wire center and the Central Office or between the Central Offices. A fixed rate and a rate per mile apply to each Digital Data Interoffice Channel provided.

- a. Interoffice channel, each channel

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 15

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service

A. General

1. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month.
2. Channel Services provided under the provisions of this Price List are offered for IntraLATA Services only. Voice Grade Services consist of Local Channels, Interoffice Channels, and Optional Features and Functions.

B. Rate Categories

Following are the basic rate categories which apply to Voice Grade service.

I. Local Channels

A local Channel provides for a communications path between the demarcation point at a customer premises and the serving wire center of that premises. One local channel charge applies per channel termination.

2. Interoffice Channels

This rate category provides for the transmission facilities between serving wire centers associated with two customer premises, between serving wire centers associated with a customer premises and a Company hub, or between two Company hubs.

Interoffice mileage is portrayed as a flat rate and a rate per mile. For method of Determining airline mileage, see the NECA Price List.

3. Optional Features and Functions

This rate category provides for features and functions which may be added to a service and to improve its quality or utility to meet specific communications requirements. These are not necessarily identifiable with specific equipment, but rather represent the end result in terms of the performance characteristics which may be obtained. This category includes a. and b. following.

a. Hub Functions

A hub is a Company designated wire center where bridging or multiplexing functions are performed i.e., connecting three or more customer premises in a multipoint arrangements or channelizing analog or digital services requiring a lower capacity or bandwidth.

- b. Provides for such things as signaling, conditioning, transfer arrangements, protection switching, etc.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company, Inc.

Section 10
Original Page 16

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service (Continued)

C. Service Confirmations (Continued)

I. There are two types of service configurations which can be provided. These are described as follows:

a. Two-Point Service

A two-point service connects two customer premises either directly through a serving wire center(s) or through a Company hub where additional functions are performed.

b. Multipoint Service

(1) Multipoint service connects three or more customer premises through a Company hub.

(2) There is no limitation on the number of mid-links available with multipoint service. However, when more than three mid-links are provided in tandem, the quality of the service may be degraded. A mid-link is a channel between hubs (i.e., bridging locations).

(3) Voice Grade Multipoint Channel services for data use have a limit of six two-wire facility type local channels or 20 four-wire facility type local channels when used with customer-provided station equipment.

(4) Only certain types of service are available for multipoint applications.

D. Special Routing of IntraLATA Voice Grade Service.

1. The Voice Grade services furnished in this Price List are provided over such routes as the Company may elect.

2. Special routing is involved where, in order to comply with requirements specified by the customer, the Company furnishes the private line service in a manner which includes one or both of the following conditions:

a. Where two or more private lines must be furnished over different physical routes.

b. Where a private line must be furnished on a route which avoids specified geographical locations.

3. When special routing of services is furnished a customer, the rates will be determined on an individual case basis.

GENERAL SUBSCRIBER SERVICES PRICE LIST

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service (Continued)

E. Service Descriptions

- I. Voice Grade Service provides for voice and/or data communications on a two-point or multipoint basis for service 7 days per week, 24 hours per day, for a minimum period of one month. These channels may also be furnished on a link (partial channel) basis when connected to services such as DSI. Channels which also provide tie line service will not be furnished to correct a flat rate system with a message rate system. The transmission characteristics and various types of services furnished are described in b. and c. following.
2. Basic parameters and specifications for Voice Grade Service are described for the end to end operations as follows:

Basic Parameters	For Speech Application	For Data Application
Net Loss	Local Channels used with terminal equipment: Limit as specified in the following Local Channel descriptions. Losses or gains present in CPE have not been included.	
DC Resistance	Local Channel limit as specified in the following Local Channel descriptions. Does not imply or guarantee end to end DC continuity.	
Frequency Error	Plus or Minus 5 Hz	Plus or Minus 5 Hz
Frequency Response	(Referenced to 1000Hz Joss)	
300- 3000Hz	-3dB to +12dB	-3dB to + 12 dB
500- 2500Hz	-2dB to + 8 dB	-2dB to + 8dB
Envelope Delay Distortion		
800-2600 Hz	Not Controlled	Less than 1750 Microseconds
C-Notched Noise (with a -13dBmO 1000Hz Test Signal)	Not Controlled	Noise Level 24dB below signal level
Impulse Noise	Not Controlled	15 Counts in 15 minutes at a threshold of 6dB below a 13dBmO rms 1000Hz Signal
Phase Jitter	Not Controlled	10 degrees peak to peak
Non-Linear Distortion		
2 nd Order Distortion	Not Controlled	25 dB below signal level
3 rd Order Distortion	Not Controlled	30dB below signal level

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service (Continued)

E. Service Descriptions (Continued)

3. Transmission parameters for voice grade service are described as follows:

Voice Grade

- a. Two-Wire - A two-wire interface with effective two-wire facilities engineered for a 1004Hz net loss of 0 to 10 dB. Generally furnished for voice transmission, or Supervisory Control Use. Multipoint service may be provided.
- b. Four-Wire- A four-wire interface with effective four-wire facilities engineered for a 1004Hz net loss of 0 to 16dB. Generally furnished for voice transmission. Multipoint service may be provided.

Data

- a. Two-Wire - A Two-Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint services may be provided.
- b. Four-Wire- A Four Wire interface with four-wire facilities engineered for a 1004 Hz net loss of 16dB. Generally used in the provision of analog data services. Multipoint service may be provided.

4. Telemetry/Alarm Bridging Service

a. Regulations

- (1) This Price List section contains the regulations applicable for Telemetry/Alarm Bridging Service.
- (2) Except as otherwise specified following, the regulations contained herein are in addition to the regulations found in other sections of this Price List.
- (3) Telemetry/Alarm Bridging Service requires the use of equipment as specified following and voice grade local channels.
- (4) Terminal equipment provided by the customer to use with this service must meet specifications for such customer-provided equipment found in other sections of this Price List.
- (5) No more than 128 remote stations may be connected to a master station over an individual Split Band Active Bridge.
- (6) In Split Band Active Bridging arrangements, secondary bridges must be directly connected to the primary bridge via mid-link channels. Secondary bridges cannot be connected through other secondary bridges to allow additional layers of tandeming.

a. Regulations (Continued)

- (7) Secondary bridges, utilized in Split Band, Active Bridging arrangements, reduce the two-wire remote station capacity of the primary bridge. The initial secondary bridge reduces the primary bridge capacity by twelve two-wire remote station connections. Each subsequent-secondary bridge reduces the primary bridge capacity by four additional two-wire remote station connections. At the customer's option external bridging may be provided for connecting secondary bridges at the rate applicable following without reducing the two-wire capacity of the primary bridge.
- (8) Standard multipoint bridging charges as provided in other sections of this Price List are not applicable to this service except as provided in g. preceding.
- (9) Access over remote station channels is provided through a local channel and through the appropriate channel connection as contained following. Interconnection of remote stations located outside the serving wire center where the bridge to which they are to be connected is located will require interoffice channels at charges contained in this Price List.
- (10) Access over each four-wire mid-link channel for Split Band Active Bridging is through voice grade interoffice channels at charges contained in this Price List. Additionally, mid-link channel connections are required as described following.

b. Service Description

- (1) Telemetry/Alarm Bridging Service is a multi-station, voice frequency, private line service designed to provide connections between a master station and a number of remote stations simultaneously. Direct transmission between remote stations is not intended. This service is intended for application in multipoint, voice frequency, data or tone signaling arrangements with transmission at rates up to 400 baud.

4. Telemetry/Alarm Bridging Service (Continued)

b. Service Description (Continued)

2. Telemetry/Alarm Bridging Service

Split Band, Active Bridging- A bridging arrangement providing for a four-wire (master station or mid-link channel) frequency split common port and multiple two-wire (remote station) ports intended for application in multipoint, voice frequency, data or tone signaling arrangements. Two-way (polling) communication between the master station and each remote station is intended.

F. Rate Regulations

1. Types of rates and charges.

The two types of rates and charges are monthly rates and nonrecurring charges and are described as follows:

a. Monthly Rates

Monthly rates are recurring charges that apply each month or fraction thereof that a service is provided. For billing purposes, each month is considered to have 30 days.

b. Nonrecurring Charges

Nonrecurring Charges are one-time charges that apply for a specified work activity. The three types of nonrecurring charges that apply are installation of service, installation of features and functions and service arrangements.

(1) Installation of Service

Nonrecurring charges apply for each service terminated at the customer's premises. For the installation of local channels when more than one of the same type of service, between the same locations, for the same customer is ordered and installed at the same time, one at each location is billed at the First Service Installed rate and the others are billed at the Additional Service Installed rate.

The nonrecurring charges for the Installation of Services are set forth following as Nonrecurring Charges for the Local Channel and the Interoffice Channel rate elements.

Original Page 21

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service (Continued)

F. Rate Regulations

1. Types of rates and charges (Continued)

b. Nonrecurring Charges (Continued)

(2) Nonrecurring charges apply for the installation of features and functions available with the various services. For some features and functions there is a lower charge if installed coincident with the service and a higher charge if installed subsequent to the service.

c. Service Rearrangements

(1) Service rearrangements are changes to existing (installed) services which do not result in either a change in the minimum period requirements or a change in the physical location of the point of termination at a customer premises. Changes which result in the establishment of new minimum period of obligations are treated as disconnects and starts. Changes in the physical location of the point of termination are treated as moves and are described and set forth in this Price List.

The charge to the customer for the service rearrangement is dependent on whether the change is administrative only in nature or involves actual physical change to the Service.

Administrative changes will be made without charge(s) to the customer. Such changes require the continued provision and billing of the Private Line Service to the: same entity_ (i.e., customer remains responsible for all outstanding indebtedness for the service). Administrative changes are as follows:

Change of customer name (i.e., the customer of record does not change but rather the customer of record changes name),

Change of customer or customer's premises address when the change of address is not a result of a physical relocation of equipment.

Change in billing data (name, address or contact name or telephone number).

§10. IntraLATA Private Line Service

§10.4 Voice Grade Service (Continued)

F. Rate Regulations (Continued)

1. Types of rates and charges (Continued)

c. Service Rearrangements (Continued)

(2) All other service rearrangements will be charged for as follows:

If the change involves the addition of other customer designated premises to an existing multipoint service, the nonrecurring charge for the local channel rate element will apply. The charges will apply only for the location(s) that is being added.

If the change involves the addition of an optional feature or function which has a separate nonrecurring charge, that nonrecurring charge will apply.

If the change involves changing the type of signaling on a voice grade service the subsequent, nonrecurring charge will apply for the new type signaling. The charge will apply per service termination affected.

for all other changes, including a change of the customer of record involving no physical changes to the service provided or the addition of optional features without separate nonrecurring charges, a charge equal to a local channel rate element nonrecurring charge will apply. Only one such charge will apply per service, per change.

§10. IntraLATA Private Line Service**§10.4 Voice Grade Service (Continued)****F. Rate Regulations (Continued)****1. Types of rates and charges (Continued)****c. Service Rearrangements (Continued)****(3) Moves**

(a) A move involves a change in the physical location of one of the following:

(i) The point of interface at the customer premises.

(ii) The customer's premises.

(b) The charges for the move are dependent on whether the move is to a new location within the same building or to a different building.

(i) **Moves Within the Same Building**

When the move is to a new location within the same building, the charge for the move will be an amount equal to one-half the nonrecurring (i.e., installation) charge for the affected service termination at the customer's premises. There will be no change in the minimum period requirements. If a move is made at the same time a service rearrangement is made, the total charge will never exceed a full nonrecurring charge for the basic service.

(ii) **Move to a Different Building**

Moves to a different building will be treated as a discontinuance and start of service and all associated nonrecurring charges will apply. New minimum period requirements will be established at the new location. The customer will also remain responsible for satisfying all outstanding minimum period charges for the discontinued service.

G. Rates and Charges (Continued)

3. Optional Features and Functions (Continued)

b. Signaling Arrangements

Signaling arrangements are provided at the customer's option to arrange channels for suitable signaling. Signaling is required on all off-premises extension channels and tie line channels associated with PBX (or similar) systems.

Per local channel

		Monthly Rate	Nonrecurring Charge	
			Initial	Subsequent
(1)	Ringdown-Manual	\$11.00	\$34.00	\$180.00
(2)	Ringdown-Automatic	10.00	15.00	57.00
(3)	E&M Type	10.00	44.00	165.00
(4)	Type A (0-199 ohms)	6.00	40.00	115.00
(5)	Type B (200-299 ohms)	6.00	37.00	115.00
(6)	Type C (900 or more ohms)	3.00	12.00	115.00

c. Conditioning (Voice Grade Services)

- (1) Conditioning provides more specific transmission characteristics for data services. There are two types of C-conditioning and one type of D-conditioning, each with different technical specifications. C-type conditioning controls attenuation distortion and envelope delay distortion. D-type conditioning controls the signal to C-notched noise ratio and intermodulation distortion.

Conditioning is charged on a per Local Channel Basis for two-point and multipoint service. For two-point services the parameters apply to each service. For multipoint services the parameters apply to any path between any two service points.

- (2) When a channel is equipped with TypeD1 conditioning and is utilized for voice communications, the Company does not undertake to represent that the channel will be suitable for such voice transmission.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 11
Original Sheet 1

S11. FOREIGN EXCHANGE SERVICE

S11.1 GENERAL

- A. Foreign Exchange Service is furnished subject to the same restrictions as to the use of the service by others than the subscriber and his representatives, as apply in connection with other classes of the local exchange service.
- B. Subscribers to interexchange FX service contract for service with the Company owning the local exchange and normally do not contract with the other Company or companies involved, however, the Company owning the local exchange is responsible to its subscriber only for its own facilities and service.
- C. A subscriber of FX service will be required to also take regular exchange service from the local exchange. In no event shall the FX service be allowed to be connected to, or otherwise be made available for, the local exchange switchboard service.
- D. Foreign Exchange Service is offered as local exchange service and the use of this service for originating toll service is not contemplated.

S11.2 DEFINITIONS

- A. Foreign Exchange (or FX) Service is exchange (local) service furnished to a subscriber from an exchange other than the one from which he would normally be served. Such service is not in accord with the general plan of furnishing telephone service and such service is furnished only under special conditions, where warranted by the circumstances, including availability of facilities involved.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 11
Original Sheet 2

S11. FOREIGN EXCHANGE SERVICE

S11.2 DEFINITIONS (Cont'd)

- B. The exchange in whose service area the customer is located and which furnishes the telephone or PBX termination for foreign exchange service and which bills and collects for such service is called the Local Exchange.
- c. The exchange which provided the central office facilities and thereby furnished the foreign exchange service is called the Serving Exchange.
- D. Where Foreign Exchange Service is provided between exchanges or exchange areas of the Company, it is called Intra-Company FX Service. Where such service is furnished between an exchange of the Company and that of another Company, it is called Inter-company FX Service.

S11.3 RATES

- A. The Company concurs with South Central Bell for Foreign Exchange Service rates. See concurrence in Section 3.
- B. The monthly rate for Foreign Exchange Service is the monthly rate for individual access line, station, or PBX trunk, applicable in the serving exchange plus the regular authorized monthly charges for any exchange service facilities, except stations and PBX trunks (but including any applicable mileage charge), used in furnishing the service by the local exchange, plus;
 - 1. Mileage charges, route measurement, of Company owned circuit used in connecting the local exchange central office with the serving exchange central office, plus;

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 11
Original Sheet 3

S11. FOREIGN EXCHANGE SERVICE

S11.3 RATES (Cont'd)

2. Any additional charges made by another telephone company or companies in furnishing the circuit.
 3. The charge set out in (1) above is predicated on the company having available facilities. If it is necessary for this Company to construct new facilities or to rent space on foreign poles to carry FX circuits, there will be an additional charge to be negotiated based on the cost of such facilities.
- c. Installation and service connection charges for furnishing Foreign Exchange Service shall be the authorized charges for individual line main station, or PBX trunk applicable in the serving exchange, plus the regularly authorized installation charges for any exchange service facilities, except stations used in furnishing the service by the local exchange.

S11.4 APPLICATIONS, BILLING AND COLLECTING PROCEDURE

- A. Interexchange FX Service will be furnished under the terms and conditions of the Foreign Exchange Service Agreement executed between this Company and the Company involved. This agreement contemplates that:
1. When a party located in this Company's exchange service area, desires this class of service, he shall apply for same to this Company, which will obtain from the Company furnishing the serving exchange service its charges and conditions for providing its parts of the applicants requested service, and on submission to applicant, and his

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Original Sheet 4

S11. FOREIGN EXCHANGE SERVICE

S11.2 APPLICATIONS, BILLING AND COLLECTING PROCEDURE
(Cont'd)

acceptance by executed contract of the overall charges including those of this Company both for installation and monthly flat rate cost and conditions of service. This applicant becomes a FX subscriber of this Company which will perform all billing to and collecting from said subscriber for the entire service rendered.

2. When a party located in another Company's exchange service area desires FX Service to an exchange belonging to this Company, his application should be made to the other Company which should handle all necessary arrangements for service and on establishment of same, do all subscriber billing and collecting. This Company has no responsibility to the subscriber with respect to such matters.

S11.5 FOREIGN LISTINGS

- A. Foreign listings are listings in the alphabetical list of an exchange other than the exchange in which the listed service is furnished.
- B. A foreigner or non-subscriber listing may be furnished customers requesting that their listing be included in a directory of an exchange other than that from which service is rendered. The rate for a foreign Company listing will be the rate of the Company in whose directory the listing appears.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 12
Original Sheet 1

S12. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S12.1 LINE EXTENSION CHARGES

A. General

1. If the estimated construction cost is less than the amount of seven years exchange service charges for which service is subscribed, the Company under the agreement of the REA Loan may not charge for construction. However, if the estimated construction cost is more than the amount of seven years exchange service charges for which service is subscribed, the conditions for construction charges described in this Price List apply.
2. Construction or installation charges are non-recurring charges made under certain conditions as hereinafter set forth and are in addition to applicable charges for the class of service furnished, mileage charges and other charges that may be applicable.
3. Construction charges are payable at the time the application for service is signed or when the amount is rendered, as the Company, at its option, may require.
4. The word "Cost", wherever used in this section, is to be interpreted to mean the cost of labor and materials, and include charges for supervision and other overhead expense associated with the construction or installation.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 12
Original Sheet 2

S12. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S12.1 LINE EXTENSION CHARGES

A. General (Cont'd)

5. When attachments are made to poles of other companies, in lieu of providing new pole construction for which the subscriber would regularly be charged construction charges under the provision of this section, the attachment rental charges to the Company for such attachments may be borne in whole or in part by the subscriber as the particular circumstances warrant.
6. Any poles, conduit, cable or other plant provided at the expense of the customer, on either a public highway or on private property shall not be used by the customer for any purpose other than service furnished by the Company for the support of cable, wire or other apparatus of the Company, except upon approval of the Company.
7. In all cases of construction on public highway or on private property to serve customers in general, ownership of the poles, conduit, and other plant must be vested either in the Company or some other company with which the Company has joint use arrangement. All plant is maintained and replaced at the expense of the Company.

B. Private Right-of-Way

When the applicant is so located that it is necessary to use private right-of-way to furnish

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 12
Original Sheet 3

S12. CHARGES APPLICABLE UNDER SPECIAL

CONDITIONS S12.1 LINE EXTENSION CHARGES

B. Private Right-of-Way (Cont'd)

service and the Company is unable to obtain the required right-of-way without cost, the applicant may be required to pay the cost incurred in securing, clearing and retaining such right-of-way.

c. Exceptions to construction Charges

1. Except as provided under "Temporary service", no construction charge is made for the provision of new pole lines or wire on public highways within the Base Rate Area.
2. ' Except as provided under "Temporary service", where the applicant is located outside the Base Rate Area and the construction of outside plant is required to provide facilities to serve one or more applicants, the applicant or applicants may be required to bear the cost of such construction. Neither station installations, including drop wire, protector, or any plant within the Base Rate Area shall be considered as construction costs.

S12.2 TEMPORARY SERVICE

When construction is required for temporary service and there is no immediate prospect of reusing the plant provided, the subscriber is required to bear the total cost of such construction and installation

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone

Section 12
Original Sheet 4

S12. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S12.2 TEMPORARY SERVICE (Cont'd)

and the cost of removal, if removed, provided, however, that the salvage value of any plant removed, excluding the telephone set, shall be deducted from the total cost to be paid by the subscriber. The conditions in 5.1.1A. do not apply to construction charges for temporary service.

S12.3 When the company shall move or change existing construction or equipment for which no specific charge is quoted in this Price List, the person at whose request the move or change is made may be required to bear the cost of such change.

S12.4 CONSTRUCTION IN RESIDENTIAL DEVELOPMENTS

All telephone service placed in residential developments of 5 or more adjoining lots in a recorded plan for the construction of single-family residence including mobile homes intended for year-round occupancy, or one or more adjoining lots for the construction of one or more apartment houses containing an aggregate of five or more family units, if telephone service to such residential or apartment house lots necessitates extending the Company's existing distribution lines.

A developer shall:

- A. At his own cost, provide the Company with easements satisfactory to the Company for occupancy and maintenance of distribution and service lines and related facilities, except in public ways which the Company has the legal right to occupy.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 12
Original Sheet 5

S12. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S12.4 CONSTRUCTION IN RESIDENTIAL DEVELOPMENTS

(Cont'd)

- B. At his own cost, clear the ground in which the aforesaid line and related facilities are to be load, of trees, stumps and other obstructions.
- c. Place with the Company, in advance or upon other terms the Company may require the following charges when the developer would normally provide service at customer request.
- D. A prepayment in aid of construction in an amount not in excess of 50% of the Company's costs of the distribution cable for the development.
- E. Such prepayment in aid of construction will be refunded on a proportionate basis for each contract for telephone service received. The basis of total refund shall be 100 percent refund upon receipt of telephone contracts for telephone service from 50 percent of the total development within a 3 year period.

If the developer changes the plot plan after installation of the Company's lines has begun, or otherwise necessitates additional costs by his act or failure to act, such additional costs shall be borne by the developer or his agent.

All distribution and service lines installed within a development shall conform to the Company's construction standards; and shall be owned and maintained by the company. Such installations shall be performed by the Company or by such other entity as the Company may authorize to do the work. The

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

S12. CHARGES APPLICABLE UNDER SPECIAL CONDITIONS

S12.4 CONSTRUCTION IN RESIDENTIAL DEVELOPMENTS (Cont'd)

Company shall not be liable for injury or damage occasioned by the willful or negligent excavation, breakage or other interference with its facilities by other than its own employees or agents.

S12.5 MISCELLANEOUS CONDITIONS

1. Charges to Customer

Facilities furnished for private branch distribution systems may require special construction charges, special monthly recurring charges, or both or a termination agreement. These charges will only apply where facilities are extended outside the building in which the private branch equipment is located and where revenues received from such mileage charges are insufficient to justify construct on.

2. Special Types of Construction

When special types of construction other than those covered preceding is desired by a customer or when the individual requirements of a particular situation make the construction unusually expensive, the customer is required to bear the excess cost of such construction.

Any special maintenance expense that may from time to time occur will be borne by the customer except that maintenance of buried service wire, including associated trenching where required, will be at the expense of the Company.

SUBSCRIBER SERVICES PRICE LIST

ARDMOR TELEPHONE COMPANY
(TENNESSEE)

SECTION 12
ORIGINAL SHEET 12

MISCELLANEOUS SERVICE

ONETOUCH SERVICE

This service is a Flex-Price and is regulated under terms and conditions as described in this Price List.

1. Applications

A; ONETOUCH service is a group of central office call management features offered in addition to basic telephone service. ONETOUCH service consists of the following features:

2. Definitions of Feature Offerings

A. Call Return

This feature enables a customer to place a call to the telephone number associated with the most recent call received whether or not the call was answered or the number is known. The customer can dial a code to request that the network place the call.

Where facilities permit, upon activation of the feature, the customer will receive a voice announcement stating that Call Return has been accessed. In addition, the announcement will provide the Directory Number (DN) of the last incoming call. In some locations, the date and time of receipt of the call will also be provided. The Call Return user will then be prompted to enter an additional digit to continue with the feature activation, or to hang up to abort the activation.

This feature is not available on operator handled calls. In connection with Call Return, the Company' will deliver all numbers, subject to technical

SECTION 12

ORIGINAL SHEET 13

MISCELLANEOUS SERVICE

ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings

A. Call Return (Cont'd)

limitations, including telephone numbers associated with Non-Published Listing Service.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for voice-back.

If the incoming call originates from a multi-line hunt group, the telephone number transmitted and voiced back will always be the main number of the hunt group, unless, facilities permitting, the telephone numbers are TN identified within the group.

•In some locations, due to technological limitations, Call Return, must be purchased with Repeat Dialing.

B. Repeat Dialing

Repeat Dialing, when activated, automatically redials the last number the customer attempted to call. If the called line is not busy, the call will be placed.

If the called line is busy, a confirmation announcement is heard, the customer hangs up and a queuing process begins. For the next 30 minutes both the calling and the called lines are checked periodically for availability to complete the call. If during this queuing process the called line becomes idle, the customer is notified, via a distinctive ring, that the network is ready to place

SECTION 12
ORIGINAL SHEET 14

MISCELLANEOUS SERVICE

ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

B. Repeat Dialing (Cont'd)

the call. When the customer picks up the telephone the call will automatically be placed.

In some locations, due to technological limitations, Repeat Dialing, must be purchased with Call Return.

c. Call Selector

Call Selector provides a distinctive ringing pattern to the subscribing customer for up to eight specific telephone numbers.

The customer creates a screening list of up to eight telephone numbers through an interactive dialing sequence. When a call is received from one of the predetermined telephone numbers, the customer is alerted with a distinctive ringing pattern (short; long, short). Calls from telephone numbers not included on the screening list will produce a normal ring.

If the customer subscribes to Call Waiting and a call is received from a telephone number on the Call Selector screening list while the line is in use, the Call Waiting tone will also be distinctive.

When a telephone number on the Call Selector screening list also appears on the Preferred Call Forwarding list, the Preferred Call Forwarding will take precedence. Likewise, when the same number is shown on the Call Block list, the call will be blocked.

GENERAL SUBSCRIBER SERVICES PRICE LIST

ARDMORE TELEPHONE COMPANY
(TENNESSEE)

SECTION 12
ORIGINAL SHEET 15

MISCELLANEOUS SERVICE

ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

C. Call Selector (Cont'd)

A customer's line will not produce a distinctive alert if the calling line is not referenced to and originated by the main telephone number or a Telephone Number identified number, that represents all the lines in a collection of lines, such as multiline hunt groups.

D. Preferred Call Forwarding

Preferred Call Forwarding allows the customer to transfer selected calls to another telephone number. A screening list of up to eight numbers is created by the customer and placed in the network memory via an interactive dialing sequence. Subsequently, calls are forwarded to the Call Forwarding telephone number only if the calling number can be obtained and is found to match a number on the screening list.

If the customer also subscribes to Call Block and the same telephone number is entered on both screening lists, the Call Block feature must be deactivated to allow the call to forward.

This feature will not work if the calling line is not referenced to and originated by the main telephone number, or a Telephone Number identified number that represents all the lines in a collection of lines such as multiline hunt groups.

E. Call Block

This feature provides the customer the ability to prevent incoming calls from up to eight different telephone numbers.

GENERAL SUBSCRIBER SERVICES PRICE LIST

ARDMORE TELEPHONE COMPANY
(TENNESSEE)

SECTION 12
ORIGINAL SHEET 16

MISCELLANEOUS SERVICE

ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

E. Call Block (Cont'd)

A screening list is created by the customer either by adding the last number associated with the line (incoming or outgoing), or by pre-selecting the telephone numbers to be blocked. When a call is placed to the customer's number from a number on the screening list, the caller receives an announcement indicating that the party he is attempting to call does not wish to receive his call at this time.

If the customer also subscribes to Preferred Call Forwarding and/or Call Selector and the same telephone numbers appear on those screening lists, Call Block will take precedence.

This feature will not work if the incoming call is from a telephone number in a multiline hunt group unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

F. Call Tracing

Call Tracing enables the customer to initiate an automatic trace of the last call received.

Upon activation by the customer, the network automatically sends a message to the company's Security Department indicating the calling number, the time the trace was activated, and in some locations, the time the offending call was received'. The customer using this feature would be required to contact the Law Enforcement Agency for further action. The customer is not provided the traced number.

ONETOUCH SERVICE (Cont'd)

2. Definitions of Feature Offerings (Cont'd)

F. Call Tracing (Cont'd)

Only calls from within the same ONETOUCH capable area are traceable using Call Tracing.

This feature will not work if the incoming call is from a telephone number in a multiline hunt group, unless the telephone number is the main telephone number in the hunt group, or is Telephone Number identified.

In some locations, if the customer makes or receives another call after hanging up from the annoying call, prior to activating the trace, Call Tracing will not record the correct number.

G. Caller ID - Basic (Number Delivery)

This feature enables the customer to view on a display unit the Directory Number (DN) on incoming telephone calls.

When Caller ID - Basic is activated on a customer's line, the Directory Numbers of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

Any customer subscribing to Caller ID - Basic will be responsible for the provision of a display which will be located on the customer's premises. The installation, repair, and technical capability of that equipment to function in conjunction with the feature specified herein will be the responsibility of the customer. The Company assumes no liability and will be held harmless for any incompatibility of this equipment to perform satisfactorily with the network features described herein.

2. Definitions of Feature Offerings (Cont'd)

G. Caller ID - Basic (Number Delivery) Cont'd

If the-incoming call is from a caller who subscribes to Teen Line service, the telephone number transmitted will always be the main number rather than the service number.

If the incoming call is from a caller served by a PBX, only the main number of the PBX is transmitted and available for display.

If the incoming call originates from a multi-line hunt group, the telephone number transmitted will always be the main number of the hunt group, unless, facilities permitting, the lines are Telephone Number (TN) identified within the group.

If the incoming call is from a caller who subscribes to and/or has activated Calling Number Delivery Blocking as described in J. following, the calling number will not be delivered.

Calling arty telephone number information via Caller ID - Basic is not available on operator handled calls.

H. Caller ID - Basic (Name Delivery)

This feature enables the customer to view on a display unit the Directory Name on incoming telephone calls.

When caller ID - Basic is activated on a customer's line, the Directory Names of incoming calls are displayed on the called CPE during the first long silent interval of the ringing cycle.

SECTION 12
ORIGINAL SHEET 21.1

MISCELLANEOUS SERVICE

ONETOUCH SERVICE (CONT'D)

2. Definitions of Feature Offerings

K. Enhanced Caller ID (Busy Line and Idle Line Number Delivery)

This feature, which provides both the call waiting and Caller ID functionalities, enables the customer to view on a display unit the calling party Directory Name and Directory Number (DN) on incoming telephone calls both when the subscriber's line is in use or not in use. The date and time of the call is also transmitted to the Enhanced Caller ID customer. A maximum of 15 characters is allowed for transmission of the calling party's Directory Name.

When the Enhanced Caller ID customer's line is not in use, the Directory Name and Directory Number of the line that originated the incoming call and the date and time of the call will be displayed on the called CPE during the first long silent interval of the ringing cycle.

When the Enhanced Caller ID customer's line is in use, the Directory Name and Directory Number of the line that originated the incoming call and the date and time of the call will be displayed on the called CPE following the waiting call alerting tone. The called party has the following options for disposition of the incoming call:

Answer the waiting call while placing the original call on hold,

Alternate between the waiting call and the original call, and

Ignore the waiting call.

For customers who have voice mail, the call will transfer to voice mail after the preset number of rings.

L. Telemarketer Call Screening (TCS)

The Telemarketer Call Screening (TCS) service intercepts calls that are delivered as "unknown" to the subscriber's line. The service plays an announcement stating "The number you have reached does not accept calls from telemarketers. If you are a telemarketer, please add this number to your "do not call list" and hang up now otherwise, please press 1 or stay on the line." TCS screens most telemarketing calls since telemarketers typically connect with Multi Frequency (MF) trunks and thus are unidentified in the SS7 network.

M. Do Not Disturb

Do Not Disturb allows a subscriber to place their telephone in an apparent busy condition to all incoming calls without affecting the outgoing features of the line (i.e., calls and feature activations can be made). A special busy tone is returned if a line in a Do Not Disturb (DND) condition is called.

N. Wake Up Service

Wake-Up Service allows a subscriber to dial a special code to program a wake-up time by a 24 hour clock. The telephone will then ring back at the pre-programmed time.

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.1 GENERAL REGULATIONS

A. General

This section addresses the responsibilities and liabilities of the customer and company where customer provided terminal equipment and communication systems interconnect with the regulated services of the Telephone Company. customer provided refers to any equipment purchased by the customer or leased by the customer from the deregulated operations of the Telephone company or from any other provider of such equipment.

B. Responsibility of the Customer

Customer-provided communications equipment may be used with the facilities furnished by the Telephone Company for telecommunications services as provided in this Price List. In all such cases the customer-provided communications equipment will be constructed, maintained and operated as to work satisfactorily with the facilities of the Telephone Company.

Where telecommunications service is available under this Price List for use in connection with customer-provided communications systems, the operating characteristics of such equipment or system shall be such as not to interfere with any of the services offered by the Telephone Company. Such is subject to the further provisions that the customer-provided equipment or system does

B. Responsibility of the customer (Cont'd)

not endanger the safety of Telephone employees or the public; damage, require change in or alteration of, the equipment or other facilities of the Telephone Company; interfere with the proper functioning of such equipment or facilities; impair the operation of the Telephone Company's service. Upon notice from the Telephone Company that the customer-provided equipment is causing or is likely to cause such hazard or interference, the customer shall make such change as shall be necessary to remove or prevent such hazard or interference. The customer indemnifies and saves the Telephone Company harmless against claims for infringement of patents arising from combining such equipment or system with, or using it in connection with, facilities of the Telephone Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Telephone company.

c. Responsibility of the Telephone Company

The company shall not be responsible for the installation, operation or maintenance of any customer-provided terminal equipment or communications system. Telecommunications or private line service is not represented as adapted to the use of customer-provided equipment or systems and where such are connected to the

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 13
Original Sheet 3

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.1 GENERAL REGULATIONS

c. Responsibility of the Telephone Company (Cont'd)

Company facilities the responsibility of the Company shall be limited to the furnishing of facilities suitable for telecommunications service and to the maintenance and operation of such facilities in a manner proper for such telecommunications service. Subject to this responsibility, the Company shall not be responsible for:

- (1) the through transmission of signals generated by the customer-provided equipment or systems or for the quality of, or defects in such transmission, or
- (2) the reception of signals by customer-provided equipment or systems, or address signaling where such signaling is performed by customer-provided signaling equipment.

The Telephone Company will, at a subscriber's request, provide information concerning interface parameters, including the number of ringers which may be connected to a particular telephone line needed to permit customer-provided terminal equipment to operate in a manner compatible with telecommunications or private line service.

The Telephone Company may make changes in its telecommunications or private line services, equipment, operations or procedures, where such action is not inconsistent with Part 68 of the Federal Communications Commission's Rules and Regulations.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Original Sheet 4

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.1 GENERAL REGULATIONS

- c. Responsibility of the Telephone Company (Cont'd) If such changes can be reasonable expected to require modification or alteration of customer-provided terminal equipment or communications systems or materially affect its performance, the Company will make a reasonable effort to notify the customer in advance, to allow the customer an opportunity to maintain uninterrupted service.

The telephone Company will not be responsible for any loss or damage, nor for any impairment or fallure of the service, arising from or in connection with the use of facilities of customers and not caused solely by the negligence of the Telephone company.

D. Violation of Regulations.

Where any customer-provided equipment or system or communication system provided to a customer is used with telecommunications service in violation of any of the provisions in this Price List, the Telephone company will take such immediate action as necessary for the protection of its services, and will promptly notify the customer of the violation. The customer shall discontinue such use of the equipment or system or correct the violation and shall confirm in writing to the Company within 5 days, following the receipt of written notice from the company, that such use has ceased or that the violation has been corrected.
Failure of the customer to discontinue such use or to correct the violation and to give the

S13.2 CONNECTIONS OF REGISTERED TERMINAL EQUIPMENT AND
SYSTEMS (Cont'd)

B. Premises Wiring Associated with Registered or
Grandfathered Communications Systems

1. Premises Wiring is wiring which connects
separately-housed equipment entities or
system components to one another, or wiring
which connects and equipment entity or system
component with the telephone network
interface, located at the customer's premises
and not within an equipment housing. This
premise wiring will be provided on a
deregulated basis effective January 1, 1987.

a. Full -protected Premises Wiring is
premises wiring which is:

(1) No greater than 25 feet in length
(measured linearly between the point
where it leaves equipment or
connector housings) and registered
as a component of and supplied to
the user with the registered terminal
equipment or protective circuitry
which it is to be used.

(2) A cord which complies with (1)
preceding and which is extended once
by a registered extension cord.
Extension cords may not be used as a
substitute for wiring which for
safety reasons should be affixed to
or embedded in a building's
structure.

Ardmore Telephone Company

Section 13
Original Sheet 13

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.4 ACOUSTIC OR INDUCTIVE CONNECTIONS

A. General

Customer-provided voice or data terminal equipment and customer-provided communications systems may be acoustically or inductively connected at the customer's premises to the telecommunications network provided the connection is made externally to the network control signaling unit when the unit is Telephone Company-provided. The customer-provided communications equipment must comply with all the criteria contained in Subpart D of Part 68 of the Federal Communications Commission's Rules and Regulations both prior to and after the application of each of the mechanical and electrical stresses specified in that section.

S13.5 CONNECTION OF CUSTOMER-PROVIDED COMMUNICATIONS SYSTEMS
NOT SUBJECT TO PART 68 OF THE FCC RULES AND
REGULATIONS

A. Customer-provided communications systems not subject to Part 68 of the Federal Communications Commission's Rules and Regulations may be connected with telecommunications services in accordance with this Price List. These communications systems (including channels derived from such systems), not exceeding voice grade, may be connected at the customer's premises provided that:

1. such telecommunications service or customer-

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.7 CUSTOMER PREMISES INSIDE WIRE

A. General Regulations (Cont'd)

2. Customer premises inside wire is defined as that wire, including connectors, blocks and jacks, within a customer's premises that extends between the termination of the Exchange Access Line and those standard jack locations within the customer's premises to which terminal equipment can be connected for access to the Network Access Line.
3. Customer premises inside wire provided by the customer must be installed in accordance with the technical standards and installation guidelines furnished to the Commission by the Company and must comply with the National Electric Safety Code and applicable local codes.
4. Customer premises inside wire provided by the customer may be connected to residence and business individual line basic local exchange service furnished by the Company at a specified network interface.
5. The network interface for the connection of customer premises inside wire consists of a standard modular jack or appropriate device and is provided as part of the network access line. This will be installed inside or outside the customer's premises at a location determined by the Company which is accessible to the customer. The normal location will be in close proximity to the protector or entrance facility, whenever practicable.

S13. INTERCONNECTION WITH COMMUNICATIONS EQUIPMENT
AND SYSTEMS PROVIDED BY THE CUSTOMER

S13.7 CUSTOMER PREMISES INSIDE WIRE

A. General Regulations (Cont'd)

6. The Company is not obligated to connect telephone instruments and standard modular jacks to customer-provided inside wire.
7. Maintenance of customer owned premises inside wire may be performed by either the Company on a deregulated basis after January 1, 1987, or the customer.

B. Responsibility of the customer

1. When the customer provides the inside wire and standard jacks, the installation must be in accordance with the technical standards furnished to the Commission by the company.
2. In the event the customer maintains or attempts to maintain inside wire, the customer assumes the risk of loss of service, damage to property, or death to or injury of the customer or the customer's agent. The customer will save the company harmless from any and all liability claims, or other damage suits arising out of the customer's wire maintenance activity.

c. Responsibility of the Company

1. The Company will make the technical standards and installation guidelines for customer

CENTREX SERVICE

A) General

Centrex Service is a flat-rate business service with a 2 line minimum requirement. It is a central office based service provided from suitably equipped Telephone Company digital central office facilities. Centrex Service is furnished, subject to the availability of facilities.

The equipment permits the direct dialing between lines connected to the service and the direct dialing of outgoing calls. Incoming calls are received by direct inward dialing from the calling party to the station line or through an attendant console.

Centrex Service consists of basic lines equipped with standard features, plus a number of optional features. The standard features are included in Centrex Service. Optional features are offered subject to availability. Attendant consoles and station equipment are to be provided by the customer, or can optionally be leased or purchased from the telephone company.

Centrex Service will be offered under two basic packages:
. Multiline Variety Package (MVP) for 2-6 lines; Integrated Business Services (IBS) for 2-2999 lines

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 9

CENTREX SERVICE

D) Regulations

- (1) Centrex Service is provided to customers with two or more lines. This service is furnished subject to availability. In those cases where the company determines that additional equipment must be provided on the customer's premises, the customer will be required to furnish the suitable space and environmental conditions as determined by the Company.
- (2) One directory listing is provided without charge for each Centrex Service,
- (3) The monthly rate for Centrex Service lines and features covered under a monthly service period plan is guaranteed against company-initiated change and will apply for the selected service period. The minimum service period is 12 months.
- (4) If the service is cancelled in whole or in part by the customer after installation of the service but prior to the completion of the service period, the customer shall be obligated to pay the remaining payments, as contracted.
- (5) Centrex service station lines may be terminated in a customer-provided PBX or key system. Such lines may be either ground start or loop start and may have any standard treatment. Transmission quality over Centrex Service lines of this type is not guaranteed. Additional transmission improvements requested by the customer will be provided by the Telephone Company at charges based on cost.
- (6) Station Message Detail Recording (MDR) is not represented to be a provision of billing detail.
- (7) When using Call Forwarding and Call Transfer, the Centrex Service customer is responsible for the

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 8

CENTREX SERVICE

D) Regulations (con't.)

payment of the Price List station-to-station charge for each call connected over the exchange system between the Digital Centrex Service and the telephone at which the call is answered. The charge s applied to each call answered, including the call establishing the Call Forwarding mode, and collect and person-to-person calls which are refused at the answering telephone.

- (8) Unless specifically exempted, this service is subject to all general regulations applicable to the provision of service by the company as stated in the general Price List.
- (9) Trunk verification from a station line requires the establishment of a supplemental line treatment.
- (10) Centrex Services are subject to Extention Line Mileage charges in Section 8, Sheet 4.

E) Definitions

- (1) Call Forward, All Calls - Allows incoming calls (intragroup and DID) directed to a station line to be routed to a user-defined line inside or outside the customer group or the attendant.
- (2) Call Forward, Busy - Permits incoming calls (originating from an outside group) attempting to terminate to a busy station l ne to be re-directed to a predetermined line inside the customer group.
- (3) Call Forwarding No Answer - Provides for forwarding of incoming calls to a predetermined line inside the customer group when the called station line does not answer within a predefined ringing cycle.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 9

CENTREX SERVICE

E) Definitions (con't.)

- (4) Call Hold - Allows the user to hold one call for any length of time provided that neither party goes on-hook.
- (5) Call Pick-U - Allows a station line to answer incoming calls to another station line within^a defined call pick-up group. Call pick-up is provided on individual station lines within a customer group.
- (6) Call Waiting - Allows an incoming call (within or outside the customer group) to apply a call waiting tone on a busy station line which has been assigned the call waiting feature.
- (7) Cancel Call-Waiting - A line option that allows a user, by dialing a code, to prevent, on a per-call basis, any incoming calls from waiting on his/her line.
- (8) Class of Service - Provides the capability to allow or deny individual station line features. The treatments can be arranged to control all calls originating or terminating on station lines.
- (9) Common Control Switching Arrangement (CCSA) Access - **Enables station line users in the customer group to gain access to the CCSA by using special access codes and dialing reserved number exchange (RNX) patterns.**
- (10) Convenience Dialing - Allows MVP subscribers to place calls by dialing a speed calling code from a shared list of up to 30 stored numbers (normally 20-49) instead of dialing all digits of the desired number. A control station will add, change, or delete telephone numbers from the list for the group.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 10

CENTREX SERVICE

E) Definitions (con't.)

- (11) DTMF station Signaling - Permits station equipment to utilize dial tone multifrequency signaling tones, instead of dial pulses to transmit called numbers, access codes, etc. to the central office entity, including the "#" and "*" digits.
- (12) Distinctive Call waiting Tones - Permits a called station line user to determine whether an incoming waiting call is external or internal to the customer group by providing different tone cadences for the two situations.
- (13) Distinctive Ringing - Provides a unique pattern of ringing to permit the station line user to distinguish between intragroup and DID calls.
- (14) Group Speed Calling - Allows IBS subscribers shared use of a speed calling list of up to 30 stored numbers. A control station will add, change or delete telephone numbers from the list for the group.
- (15) Intercom Dialing - Allows an MVP line to call other lines within the same customer group by using abbreviated dialing in lieu of one's seven-digit telephone number.
- (16) Speed Calling Individual Long List - Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. The speed calling list is customer-changeable. Allows a

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 11

CENTREX SERVICE

E) Definitions (con't.)

station line user to add, change or delete telephone numbers from a list. A list of 30 numbers may be dedicated to the individual station line user.

- (17) speed Calling Individual Short List - Permits a station line user to dial selected numbers by using fewer digits than normally required. This is accomplished through the assignment of abbreviated codes to frequently called numbers. The speed calling list is customer-changeable. Allows a station line user to add, change or delete telephone numbers from a list. A list of eight numbers may be dedicated to the individual station line user.
- (18) station-to-Station Calling - Allows IBS customer group stations to complete calls to other stations within the group by using one to four digits without the assistance of an attendant.
- (19) Three-way Conference - Allows a station line user to add a third party to an existing conversation.
- (20) Three-Way Conference/Call Transfer - Allows a user with or without the three-way calling feature assigned to form a three-way conference during a call transfer.
- (21) Entity - A central office entity is one central office switching system located within a central office building that provides services to the same geographic service area within a telephone exchange.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 15
Original Sheet 12

CENTREX SERVICE

E) Definitions (con't.)

Option 1 - Call Handling Package

(1) Call Forward, Busy Enhancements

(a) call Forward Busy - All - Provides for forwarding of any call (incoming or intragroup) that terminates within the group to be automatically transferred when a busy condition is encountered.

(b) Call-Forward, Busy - Incoming Only - Allows incoming calls (those which originate outside the group) directed to a station line to be routed to a predetermined line within the same customer group.

(c) Call Forward, Busy -Intragroup - Permits calls that originated and terminate within the customer group and attempt to terminate to a busy station line to be re-directed to a predetermined line inside the customer group.

(2) Directed Call Pick-Up (DCPU)

(a) DCPU Non Barge-In - Permits a station line user to answer a call that is ringing any other line within the same customer group by dialing a code followed by the station number of the ringing line. If the called station line has already been answered, the initiating station line will be connected to a reorder tone.

E) Definitions (con't.)

Option 1 - Call Handling Package

(2) Directed Call Pick-Up (DCPU) (con't.)

(b) DCPU Barge-In - Permits a station line user to answer a call that is ringing any other line within the same customer group by dialing a code followed by the station number of the ringing line. If the called station line has already been answered, the initiating station line may barge-in to the answered call and be connected into a three-way call.

(c) DCPU Any station - This is a terminating line option. A call to a station assigned the DCPU option can be picked-up by any other member, from any phone within the defined customer group.

(d) DCPU Barge-In Exempt - This is a terminating line opt on that blocks any attempt by another station to barge-in.

(e) DCPU Exempt - This is a terminating line option that blocks any attempt by another station to pick up a call by means of DCPU, either barge-in or non barge-in.

(3) Ring Again

(a) Ring Again - Allows a station line user calling a busy station line to be automatically connected to the called line when the line becomes idle.

Original Sheet 1

S25. GENERAL RULES AND REGULATIONS

S25.1 APPLICATION OF REGULATIONS

- A. The regulations set forth herein apply to intrastate services and facilities furnished within the states of Alabama and Tennessee by Ardmore Telephone Company herein referred to as the Company. When services and facilities are provided in part by the Company and in part by other companies, the regulations of the Company any apply to that portion of the service or facilities furnished by it.
- B. Effective January 1, 1987, in accordance with the order of the Federal Communications Commission (FCC) in Docket No. 79-105, the installation and maintenance of inside wire is the responsibility of the subscriber. Work performed by the Telephone Company to install and maintain inside wire will be performed on a deregulated basis.

USE OF SERVICE

- A. Abuse or Fraudulent Use of Service
 - 1. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:

S25.2

S25. GENERAL RULES AND REGULATIONS

S25.2 USE OF SERVICE

A. Abuse or Fraudulent Use of Service

1. The service is furnished subject to the condition that there will be no abuse or fraudulent use of the service. Abuse or fraudulent use of service includes:
 - a. the use of service or facilities of the Company to transmit a message or to locate a person or otherwise to give or obtain information without payment of the charge applicable for service;
 - b. rearrangement of, tampering with or connection of equipment to the facilities of the Company to obtain, to attempt to obtain or to assist others to obtain service without payment (in total or in part) of regular charges for the service.
 - c. false representation, scheme, trick or device whatsoever intended to avoid payment (in total or in part) of regular charges for the service;
 - d. the use of service or facilities of the Company for a call or calls, anonymous or otherwise, if in a manner reasonably to be expected to frighten, abuse, torment or harass another;
 - e. the use of profane or obscene language;
 - f. the use of the service in such manner as to interfere unreasonably with the use of the service by one or more other customers;

S25, GENERAL RULES AND REGULATIONS

S25.2 USE OF SERVICE

A. Abuse or Fraudulent Use of Service (Cont'd)

g. the impersonation of another.

B. Use of Service for Unlawful Purposes

The service is furnished subject to the condition that it shall not be used for any unlawful purpose.

C. Use of Party Line Service

D. Use of Customer Service

customer telephone service, as distinguished from public and semi-public telephone service, is furnished only for use by the customer, his family, employees, or business associates, or persons residing in the customer's household, except as the use of the service may be extended to joint users or to persons temporarily subleasing a customer's residential premises. The Company has the right to refuse to install customer service or to permit such service to remain on premises of a public or semipublic character when the station is so located that the public-in-general, or patrons of the customer may make use of the service. At such locations, however, customer service may be installed, provided the instrument is so located that it is not accessible for public use.

S25. GENERAL RULES AND REGULATIONS

S25.2 USE OF SERVICE (Cont'd)

E. Minimum Contract Period

1. Except as specified elsewhere in this Price List, the minimum contract period is one month from the date service or additions to service are established and the minimum charge is the authorized rate for one month. For purposes of rate administration each month is considered to have 30 days.
2. The Company may require a contract period longer than one month at the same location in connection with special types or arrangements of equipment or for unusual construction necessary to meet specific demands for service. The Company may require a longer minimum period on certain types of services or arrangements.

F. Termination of Service

1. By the company
 - a. The company may refuse to furnish, or may terminate the service and remove its equipment under the following circumstances, provided suitable notice has been given to the customer:
 - (1) upon the continuance of any unpaid amount due for a period of 5 days following temporary suspension, or failure to make a suitable deposit as required by this Price List.
 - (2) upon the continuance of any unauthorized attachment as stated elsewhere in this Price List.

S25.2 USE OF SERVICE

F. Termination of Service (Cont'd)

- (3) upon objection to the furnishing of a service made in writing by or on behalf of any governmental law enforcement agency acting within its jurisdiction, on the grounds that such service is, or will be, used for an illegal purpose;
- (4) upon the use of a service in such manner that, in the opinion of the Company, constitutes abuse or fraud or may tend to injuriously affect the efficiency of the Company's plant, property, or service;
- (5) upon a violation of any of the regulations governing the furnishing of a service.

2. At Customer's request

- a. Contracts for service may be terminated prior to the expiration of the contract period provided advance notice is given to the Company and upon agreement to pay all charges due for the service furnished, plus any termination charges which might be applicable.
- b. Where a contract for service with a one month minimum period is cancelled before establishment of the service is completed, a charge not to exceed the service charge specified, is applied if all or a portion of the facilities have been installed.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 25
Original Sheet 6

S25. GENERAL RULES AND REGULATIONS

S25.2 USE OF SERVICE

F. Termination of Service (Cont'd)

- c. No minimum or termination charge will apply (unless otherwise stated specifically in this Price List) where a new customer takes over the service of the former customer provided the service is to be furnished at the same location without interruption and that the new customer assumes all unpaid charges on the original contract. Minimum and termination charges will apply for any service furnished under the original contract which is not retained by the new customer.
- d. No minimum or termination charge will apply in the event the service is terminated because of condemnation, destruction, or damage to property by fire or other cause, beyond the control of the customer.

G. Resale of Service

The resale of any service, provided by the Company is not permitted except as provided elsewhere in this Price List or as specifically authorized by the Company.

H. Restoration of Service

In the event service is temporarily denied for nonpayment, such service will be restored upon payment of charges due or, at the discretion of

H. Restorations of Service (Cont'd)

the Company, a substantial portion thereof. A restoration charge of \$12.50 will apply.

If a trip to the premises is made to temporarily disconnect service for non-pay and payment is rendered at the time the Company agent is on the premises and service is not disconnected, the subscriber will be required to pay a Premise Visit Charge.

customers not reconnected within 10 (calendar) days from date of suspension will be treated as a new customer and appropriate service charges and a new deposit will apply.

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE

A. Applications for Service

1. Applications for service may be made orally or in writing, but an applicant may be required to sign an application if conditions warrant.
2. The Company reserves the right to refuse service to any applicant who is found to be indebted to the Company for service previously furnished until satisfactory arrangements have been made for the payment

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 25
Original Sheet 8

S25. GENERAL RULES AND REGULATIONS

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE

A. Applications for Service (Cont'd)

2. of all such indebtedness. The Company may also refuse to furnish service to any applicant desiring to establish service for former subscribers of the Company who are indebted for previous service, regardless of the listing requested for such service, until satisfactory arrangements have been made for the payment of such indebtedness.
3. If telephone service is established and it is subsequently determined that either condition above exists, the Company may suspend or disconnect such service until satisfactory arrangements have been made for the payment of the prior indebtedness.

B. Application of Business Rates

1. Business rates apply in offices, stores, factories, and all other places of a strictly business nature.
2. In boarding houses (except as noted elsewhere) offices of hotels, halls and offices of apartment buildings, quarters occupied by clubs or lodges, public, private, or parochial schools, or colleges, hospitals, libraries, churches, college fraternity houses, and other similar institutions (but excluding dormitory rooms at such schools or colleges).

Section 25
Original Sheet 9

S25. GENERAL RULES AND REGULATIONS

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE

B. Applications of Business Rates (Cont'd)

3. At residence locations when the customer has no regular business telephone and the use of the service either by himself, members of his household, or his guests, or parties calling him can be considered as more of a business than of a residence nature, which fact might be indicated by advertising, either by business cards, newspapers, hand bills, billboards, circulars, motion picture screens, or other advertising matter, such as on vehicles, etc., or when such business use is not such as commonly arises and passes over to residence telephones during the intervals when, in compliance with the law or established custom, business places are ordinarily closed.
4. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.
5. At residence locations, when a telephone station or extension bell is located in a shop, office, or other place of business.
6. At any location where the listing of service at that location indicates a business, trade, or profession, except as specified below.

c. Application of Residence Rates

1. Residence rates apply in private residences where business alphabetical or classified

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE

c. Application of Residence Rates (Cont'd)

telephone directory listings are not provided.

2. In private apartments of hotels, rooming houses, or boarding houses where service is confined to the customer's use, and elsewhere in rooming houses which are not advertised as a place of business or which have less than five rooms for roomers or which furnish meals to less than ten boarders, provided business telephone directory listings are not furnished.
3. In the places of residence of a clergyman, and in the place of residence of a physician, dentist, veterinary, surgeon or other medical practitioner, provided the customer does not maintain an office in the residence. In the residence of a Christian Science practitioner, nurse or midwife, or in the office of any of this group of persons, provided the office is located in the customer's residence and is not part of an office building. In any of such cases the listing may indicate the customer's profession, but only in connection with an individual name. If listings of firms or partnerships, etc., or additional listings of persons not residing in the same household are desired, business rates apply.
4. Where the place of business and residence of a customer are in the same premises and no telephone is installed in the place of business, the business rate shall be charged for the telephone installed in the residence.

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

D. Advance Payments

1. At the time an application for service is made, an applicant may be required to pay an amount equal to at least one month's service and for service charges which may be applicable, in addition to such special construction and installation charges as are to be borne by the applicant. The amount of the advance payment is credited to the customer's account on the first bill rendered.
2. Federal, State or Municipal governmental agencies may not be required to make advance payments.

E. Customer Billing

1. The customer is responsible for all charges in conjunction with the services furnished him including collect toll messages which have been accepted at the customer's telephone.
2. Monthly recurring charges are billed in advance and toll charges are billed in arrears. Special billing arrangements may be established for services provided to Governmental agencies.
3. Bills are due when rendered unless otherwise specified on the bill and may be paid at any business office of the Company or at any agency authorized to receive such payments.

Section 25
Original Sheet 12

S25. GENERAL RULES AND REGULATIONS

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

E. Customer Billing (Cont'd)

4. For billing purposes each month is presumed to have thirty days.
5. Retroactive billing adjustments will not be made for a period exceeding three years.
6. The Company may temporarily suspend service in the event the customer fails to pay any amount due. such suspension shall not be made until at least five days following written or verbal notification to the customer of the intention to suspend service.
7. A late payment charge of 1 1/2 percent applies to each subscriber's bill (including amounts billed in accordance with the Company's Billing and Collection Services) when any undisputed portion of a previous month's bill has not been paid in full by the subsequent billing date. The 1 1/2 percent charge is applied to the total amount carried forward and is included in the total amount due on the subscriber's current bill.

F. Telephone Numbers

1. The customer has no property right to the telephone number nor any right to continuance of service through any particular central office.
2. The Company reserves the right to change the customer's telephone number or the central office associated with such number, or both, as may be required for the proper conduct of its business.

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

G. Alterations

The customer agrees to notify the Company promptly whenever alterations or new construction on premises owned or leased by him necessitate changes in the Company's equipment; and the customer agrees to pay the Company's current charges for such changes.

H. Special Construction

1. Private Property (See also Section 12, Charges Applicable Under Special Conditions)
 - a. An average amount of entrance and distribution facilities may be furnished by the Company provided the facilities are of the standard type normally furnished for the particular location or kind of service.
 - b. If additional entrance or distribution facilities are required; if the conditions are such as to require special equipment, maintenance or methods of construction; if the stability of the customer has not been established; if the installation is for a temporary or semi-permanent purpose or if for any other reason the construction costs are excessive as compared with the revenue to be derived, the applicant shall be required to pay the costs over and above those applicable for a normal installation.

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE (Cont'd)

H. Special Construction (Cont'd)

- c. The customer will provide the Company without charge written permission for the placing of the company's facilities on the property.

2. Underground

- a. When feasible conduit will be furnished by the company at cost, or conduit may be provided by the applicant subject to the Company's specifications. Conduit used for telephone company facilities may not be used for any other purpose without the consent of the Company. The distance between the conduit and any Electric Light or Power Conduit or Conductor shall be in accordance with the Company's specifications. The customer shall be required to pay the entire cost of maintenance of conduit including subsequent excavations and replacements necessary because of damage resulting from negligence on the part of the customer or his representatives or from freezing or improper drainage.
- b. The cost of relocating underground entrance facilities at the customer's request will be borne by the customer.

I. Special Assemblies of Speculative Projects

1. Special assemblies of speculative projects for which provision is not otherwise made in

(Cont'd)

this Price List may be provided where practicable, if not detrimental to any of the services furnished by the company.

- a. The charge for such facilities may be in the form of an installation charge, a monthly charge, a termination charge or any combination thereof and will include, when applicable, one or more of the following estimated expense items associated with the special service provided:

- (1) maintenance expense
- (2) depreciation expense - including reusable and non-recoverable items
- (3) administration expense
- (4) taxes - including Federal Income Tax
- (5) any other specific items of expense that may be associated with the facility provided
- (6) a reasonable return on investment

- b. The estimated installation cost used in the derivation of the various expense items shall include the following:

- (1) material
- (2) material overhead
- (3) installation labor
- (4) installation labor overhead

2. In connection with Marketing and Sales studies and for Marketing and Sales programs,

(Cont'd)

the Company reserves the right to waive service charges within specified areas for such periods of time as designated by the Company.

J. Transfer of service Between Subscribers

Service previously furnished one subscriber may be assumed by a new subscriber upon due notice of cancellation, or in case of abandonment, provided there is no lapse in the rendition of service. such transfers are made subject to service connection charge regulations and may be arranged for in either of two ways:

1. If the new subscriber, fully understanding the regulations governing the service and the status of the account, willingly assumes all obligations thereunder. Future bills are then rendered to him without adjustment to or from any particular date, with the Company' arranging for the requested change in billing and directory listing.
2. If the new subscriber does not wish to assume payment of the old account, a new service application is taken and an adjustment in billing is made to and from the date the transfer is effective.

Private Branch Exchange Service may be transferred from one subscriber to another

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 25
1st Revised Sheet 17

S25. GENERAL RULES AND REGULATIONS

S25.3 ESTABLISHMENT AND FURNISHING OF SERVICE

J. Transfer of Service Between Subscribers (Cont'd)

pursuant to the above regulations and any other regulations which may be specified in other Price List sections relating to the service transferred.

Under either method of transfer, the reassignment of the old call number to the service of the new party is arranged for only after the former subscriber has given his consent to its use, and then only when, in the judgment of the company, there exists no relationship, business or otherwise, between the old and new subscribers, and when in the judgment of the Company, a change in the telephone number is not required.

When in the judgment of the Company, there does exist a relationship, business or otherwise, between the old and the new subscribers, the reassignment of the old telephone number will not be permitted unless all charges due under the current account have been paid, and then only when in the judgment of the Company, a change in the telephone number is not required.

S25.4 ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. Establishment of Credit

1. The Company is not obligated to establish, furnish or continue to furnish service to any individual or firm that owes for service under the same class of service previously rendered at the same or a different address, until arrangements have been made to liquidate such previous indebtedness to the Company. The Company cannot deny a prospective customer or customers for any reason

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 25
1st Revised Sheet 18

S25. GENERAL RULES AND REGULATIONS

S25.4 ESTABLISHMENT AND MAINTENANCE OF CREDIT

A. Establishment of Credit (Cont'd)

listed under the APSC Telephone Rule 7. In order to insure the payment of all charges due for its service, the Company may require any customer to establish and maintain his credit in one of the following ways:

- a. By furnishing acceptable credit references to the company.
 - b. By providing a suitable guarantee in writing, in a form prescribed by the Company.
 - c. By means of a cash deposit.
2. The Company shall be the sole judge as to whether or not the references or guarantee in writing are acceptable,

B. Deposits

1. The Company may, when in its judgment such deposit is necessary, require at any time, from an applicant, or subscriber, a cash deposit intended to guarantee payment of the current bills for telephone service. Such deposit shall not exceed the monthly amount for local exchange service and other monthly charges added to twice the estimated monthly toll charges. Interest shall be paid by the Company upon such deposit at the rate prescribed by the Public Service commission. Interest shall be payable for the time such deposit was held by the Company and the customer was served by the Company, unless such period be less than 30 days.

Ardmore Telephone Company

Section 25
1st Revised Sheet 19

S25. GENERAL RULES AND REGULATIONS

S25.4 ESTABLISHMENT AND MAINTENANCE OF CREDIT

B. Deposits (cont'd)

2. The fact that a deposit has been made in no way relieves the applicant or subscriber from complying with the company's regulations as to advance payments and the prompt payment of the bills upon presentation by the Company, and providing for the discontinuance of service for nonpayment of any regulated sum due the company for telephone service.

3. Ordinarily deposits will be secured only from those of unknown financial responsibility who are unable or unwilling to furnish satisfactory credit references and from those having unsatisfactory references and/or previous performance records.

c. Discontinuance of Service for Failure to Maintain Credit

Service may be disconnected for failure to maintain credit, as specified above, following C five days after the Company has served or mailed notice requiring the customer to do so.

D. Restoration Charge

Where service has been discontinued for failure to maintain credit as specified above, appropriate service charges will be made and collected by the Company.

E. Adjustments for County or Other Local Taxing Authority Payments

1. In the event a county or other local taxing authority acquired the legal right to impose

where available, for communication between parties subject to the terms and conditions specified in this Price List.

B. Provision of Equipment

1. All equipment necessary for the provision of a given service will be furnished by the Company on a deregulated basis or by the customer except as provided elsewhere in this Price List. The customer may be required to provide suitable housing or other protective measures where equipment is to be installed in locations exposed to weather or other hazards. Commercial power will be furnished by the customer on his premises in suitable outlets when required.
2. No equipment, apparatus, circuit or device not furnished by the Company shall be attached to or connected with the facilities furnished by the Company; whether physically, by induction, acoustically or other; except as provided in this Price List or as otherwise authorized in writing by the Company. In case an such authorized attachment or connectlon is made, the company shall have the right to remove or disconnect the same or to terminate the service.
3. The provisions of the preceding shall not be construed or applied to bar a customer from using devices which serve his convenience in his use of the facilities of the Company provided any such device so used does not:

- A. Network Facilities for Use With Automatic Dialing and Announcing Devices (Cont'd)

violation of the provisions set forth preceding will be subject to immediate disconnection of telephone service.

S25.7 OBLIGATION OF THE SUBSCRIBER

- A. Subscribers of the Telephone Company shall be responsible for the prompt payment for all services rendered by the Telephone Company. Failure to receive a bill for any given period of time will not relieve the subscriber of his financial obligation. Payments may only be made directly to the Telephone Company business office, in person, by mail or to a designated collection facility of the Telephone Company (e.g., bank) in accordance with the Price List rate section contained herein.
- B. Only properly appointed and identified employees of the Telephone Company located at the business office where bills are paid, the President, or its special agent acting to collect past due accounts are authorized to receive subscriber payments. No maintenance personnel or other employee of the Telephone Company may represent themselves as authorized recipients of payments for any telecommunication services provided. Any subscriber who believes that an employee of the Telephone Company has collected or attempted to collect payments or any sums of money outside the proper channels provided herein, shall bring such information to the attention of the Telephone Company at once.

S25.2 GENERAL RULES AND REGULATIONS

S25.7 OBLIGATIONS OF THE SUBSCRIBER (Cont'd)

- c. In no case shall a subscriber be required to pay any sum to any employee of the Telephone Company or to anyone alleging to be agents of the Telephone Company except as provided herein. Any subscriber who makes such unauthorized payments may still be obligated to pay the Telephone Company if the Telephone Company is unable to recover all or part of such sums taken by unauthorized persons.
- D. The subscriber may not replace, rearrange, connect to, or attempt to repair any Company-owned equipment installed or placed on his premises, or apparatus connected to such equipment, without written consent of the Telephone Company. In the event a subscriber tampers with any service or company-owned facilities, the Telephone Company shall have the right to immediately discontinue service without notice. Damages arising or associated with such actions shall be the liability of the subscriber.
- E. The subscriber is responsible for damages to the facilities of the Telephone Company caused by negligent or willful acts of the subscriber or his authorized agents and users, including the reimbursement to the Telephone Company for any losses through theft, fire, or vandalism occurring as a result of such neglect.
- F. The subscriber is responsible to maintain clean, safe, and hazard free working conditions, environment and equipment for the employees, equipment, and agents of the Telephone company.

Ardmore Telephone Company

Section 26
original Sheet 1

S26. DEFINITIONS

ACCESS LINE - A circuit directly connectin9 the central office switching equipment with the subscriber's termination point.

ACCESS LINE WORK CHARGE - The charge for work associated on the circuit between the serving central office up to and including the protector on the customer's premises or on an outside circuit between premises or between locations on the same premises.

ADDITIONAL LINE - A circuit connecting a station with another station or a circuit connecting a private branch exchange station with a private branch exchange switchboard. An additional line may terminate on a key in lieu of an instrument.

AUXILIARY LINE - An additional individual line main station used for one-way (inward to the subscriber) service.

BASE RATE - A schedule rate for any form of exchange service which does not include mileage charges.

BASE RATE AREA - The developed sections which are a part of or contiguous to the community in which the exchange is located as set forth in the telephone utility's Price Lists and within which specified area local exchange service is furnished at uniform rates without mileage or zone rate charges.

BUSINESS SERVICE - Telephone service furnished to customers where the actual or obvious use is principally or substantially of a business, professional, or occupational nature.

CALL - An attempted or completed communication.

CENTRAL OFFICE - A unit in which connections are made and switching is accomplished between telephone access lines and to the toll network.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 2

S26.1 DEFINITIONS (Cont'd)

CENTRAL OFFICE EQUIPMENT - Switching, transmission and power equipment located within a central office for the purpose of connecting local, EAS and toll calls.

CENTRAL OFFICE WORK CHARGE - The charge for work associated with the central office applicable for functions required within the central office,

CHANNEL - A path for communication between two or more stations, or central offices, furnished in such a manner as the Company may elect, whether by wire, radio or a combination thereof and whether or not by a single physical facility or route.

CLASS OF SERVICE - A description of telecommunications service furnished a customer which denotes such characteristics as nature of use (business or residence) or type of rate (flat rate, measured rate, or message rate). Classes of service are usually subdivided in "grades", such as individual line, two-party, or four party.

COMMUNICATIONS SYSTEMS - Channels and other facilities which are capable, when not connected to exchange telecommunications service, of two-way communications between customer-provided terminal equipment or deregulated Company provided stations.

COMMUNITY OF INTEREST FACTOR (CIF) - A unit of measurement for determining the feasibility of Extended Area Service. A CIF is arrived at by dividing the total long distance (toll) calls made during a study period by the total number of customers (access lines) of the originating telephone exchanges involved in the study.

Ardmore Telephone Company

Section 26
Original Sheet 3

S26. DEFINITIONS (Cont'd)

COMPANY -Wherever used in this Price List, refers to Ardmore Telephone Company Inc. unless the context clearly indicates otherwise.

CONNECTING ARRANGEMENT - The equipment provided by the Company to accomplish the direct electrical connection of customer-provided facilities with the facilities of the Company or of facilities of the Company with other facilities of the Company.

CONNECTING COMPANY - A corporation, association, partnership or individual owning or operating one or more exchanges and with which communications services are interchanged.

CONSTRUCTION CHARGE - A separate nonrecurring charge made for the construction of facilities in excess of those contemplated under the rates quoted in the service order schedule.

CONTINUOUS PROPERTY - The plot of ground, together with any buildings thereon, occupied by the customer, which is not divided by public highways or separated by property occupied by others. Where a customer occupies property on both sides of a street, alley, highway, body of water, railroad right-of-way, etc., and the properties would otherwise be continuous, such properties are treated as continuous property provided local wire or cable facilities are used and the customer furnished all local distribution pole line facilities or underground conduit required in connection therewith.

CONTRACT - The arrangement between a customer and the Company under which service and facilities are furnished in accordance with the applicable provisions of the Price List.

COST - The cost of labor and materials, which includes appropriate amounts to cover the company's general operating and administrative expenses.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 4

S26. DEFINITIONS (Cont'd)

CUSTOMER - The individual, partnership, association or corporation which contracts for telephone service and is responsible for the payment of charges and compliance with the rules and regulations of the Company.

CUSTOMER PREMISES EQUIPMENT (CPE) - All telecommunications equipment located at a customer's premises (except pay phones).

CUSTOMER PROVIDED TERMINAL EQUIPMENT - Devices or apparatus and their associated wiring, provided by a customer, which do not constitute a communications system and which, when connected to the communications path of the telecommunications system, are so connected either electrically, acoustically, or inductively.

CREDIT CARD - Denotes a billing arrangement by which a long distance call may be charged to an authorized Company credit card number.

DATA ACCESS ARRANEMENT - A protective connecting arrangement for use with the network control signaling unit, or in lieu of the connection arrangement, an arrangement to identify a central office line and protective facilities and procedures to assure proper operation and protection of the telecommunications network.

DIAL SWITCHING EQUIPMENT - A unit of electro-mechanical or electronic switching equipment used in a central office or in connection with a private branch exchange system.

DIRECTORY LISTING - A publication in the Company's alphabetical directory of information relative to a customer's name or other identification and telephone number.

Original Sheet 5

S26. DEFINITIONS (Cont'd)

DROP WIRE - Paired wires, insulated and under a common cover, which connect a subscriber's line from the terminal on the pole to the point of demarcation on the customer's premises.

DUAL NAME LISTING - Provided for customers subscribing to residence service who share the same surname and reside at the same address, and for a person known by two first names.

EXCHANGE - A geographical area established for the administration of telephone service in a specified area, called the "Exchange Area", which usually embraces a city, town, or village, and its environs. It may contain one or more central offices together with the associated plant, equipment, and facilities used in furnishing communication service within that area.

EXCHANGE SERVICE AREA - The territory served by an exchange within which local telephone service is furnished at the exchange rates applicable within that area.

EXCHANGE SERVICE - The furnishing of facilities for the telephone communication within an exchange area, in accordance with the regulation and charges specified in the Price List. Exchange facilities are used to establish and maintain connection between an exchange station and the other telephone plant and facilities in connection with long distance calls or extended area service calls.

EXTENDED AREA SERVICE (EAS) - A type of telephone switching and trunking arrangement which provides for unlimited calling between two or more telephone exchanges based on a usage-sensitive structure and for a flat rate additive, if applicable.

S26. DEFINITIONS (Cont'd)

EXISTING CUSTOMER - Reference to existing customer in the General Exchange Price List means existing means customer as of customers as of this Price List.

FACILITIES - All property and means owned, operated, leased, licensed, used, furnished, or supplied for, by or in connection with the rendition of telephone service.

FLAT RATE SERVICE - Service furnished at a fixed monthly charge, including extended area service where applicable which provides unlimited local calling.

FOREIGN ATTACHMENT - Lines, instruments, appliances, or apparatus not owned or furnished by the Company.

FOREIGN CENTRAL OFFICE - Any central office other than that which serves the area in which the customer is located,

FOREIGN EXCHANGE - Any other exchange but that in which the customer is located.

FOREIGN EXCHANGE LINE MILEAGE - The measurement applying to that portion of a central office line connecting customer with a foreign central office, from the common boundary line to the customer's station, for which a monthly charge is made in addition to the basic rate for exchange service,

FOREIGN EXCHANGE SERVICE - Telephone exchange service furnished to a customer through a central office of an exchange other than the exchange regularly serving the area in which the customer is located.

GRADE OF SERVICE - The term used in describing exchange service with respect to the number of main telephones which may be connected to a central office line. (One-party, two-party, four party).

INDIVIDUAL LINE - An access line designed for the exclusive use of a subscriber.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 7

S26. DEFINITIONS (Cont'd)

INITIAL SERVICE PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

INSTALLATION CHARGE - A nonrecurring charge applying to the provision of certain items of equipment or facilities as distinguished from the service connection charge applicable for establishment of basic telephone service.

INTERCOMMUNICATING SYSTEM - An arrangement involving two or more stations which enables a user to signal and connect with other stations in the system. Effective November 1, 1987, intercommunications systems will be provided on a deregulated basis.

INTEREXCHANGE CHANNEL - That portion of a channel which connects stations in two or more exchanges.

JOINT USE OF SERVICE - An arrangement whereby an individual, firm or corporation whose telephone needs are not such as to justify the provision of separate customer service is permitted to use the service of a customer.

KEY LINE - A circuit connecting a key system with a central office.

KEY LINE TELEPHONE SERVICE - A service that enables access lines to terminate in an expandable multi-button telephone set utilizing common equipment which continuously connects a subscriber to a switching center (exchange) or common carrier operating center. Effective November 1, 1987, Company provided Key Line Telephone Service equipment will be provided on a deregulated basis.

LEASE LINE - A channel tying together two or more points in the exchange area for the sole use of the subscriber. It is

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 8

S26. DEFINITIONS (Cont'd)

terminated at each point on the subscriber owned equipment and is not connected to the central office switching equipment.

LOCAL ACCESS AND TRANSPORT AREA (LATA) - Geographic area established for the purpose of defining the territory within which a Bell Operating company may offer its telecommunications services.

LOCAL CHANNEL - That portion of a channel which connects a station to an interexchanging channel or a channel connecting two or more stations within an exchange area.

LOCAL MESSAGE - A completed communication between customer's stations located within the same exchange area or local service area.

LOCAL SERVICE AREA - The area within which telephone service is furnished customers under a specific schedule of exchange rates and without toll charges. A local service area may include one or more exchange areas.

MAINTENANCE OF SERVICE CHARGE - The charge for each visit by the Telephone Company to the premises of the customer, or authorized user, where the report results from the use of equipment provided by the customer, or authorized user.

MESSAGE - A completed telephone call regardless of length of call or time and distance involved.

MESSAGE RATE - Local exchange service billed on a per-message basis.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 9

S26. DEFINITIONS (Cont'd)

MESSAGE TOLL SERVICE OR MESSAGE TELECOMMUNICATION SERVICE (MTS) - Long distance telecommunications service between exchange areas, categorized as intraLATA/intrastate, intraLATA/interSTATE, interLATA/intrastate, or interLATA/interstate and rated on a time and distance basis.

MILEAGE - The measurement upon which charges are computed for Foreign Exchange, tie lines and private lines.

MINIMUM CONTRACT PERIOD - The minimum length of time for which a customer is obligated to pay for service, facilities and equipment, whether or not retained by the customer for such minimum length of time.

MISCELLANEOUS COMMON CARRIERS - Miscellaneous Common Carriers, as defined in Part 21 of the Federal Communications Commission Rules, are communications common carriers which are not engaged in the business of providing either a public landline message telephone service or public message telegraph service.

MISCELLANEOUS SERVICE - Service not regularly furnished with the various classes of exchange service.

MOBILE TELEPHONE SERVICE - A communication service provided by means of radio frequencies through a land radio telephone base station. Connections may be established between a wire station and a mobile or fixed unit or between two mobile or fixed units.

MOVE - A transfer of telephone service from one location to another on the same premise where there is no interruption of service other than is incident to the work involved. Transfers of telephone service from one premise to another, or from location to another on the same premise involving a break in the continuity of service and resulting in cessation of local service charges but not considered as moved but as new service and service charges that may be applicable.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
original Sheet 10

S26. DEFINITIONS (Cont'd)

NETWORK CONTROL SIGNALING UNIT - The terminal equipment furnished, installed and maintained by the Company for the provision of network control signaling.

NETWORK INTERFACE DEVICE (NID)- A standard FCC Registration Program jack or equivalent that is installed by the Telephone Company as part of the network access line on a customer's premises at a location determined by the company which is accessible to the customer and consistent with FCC Registration regulations governing the location of the network interface. The network interface is located on the customer's premises and serves as the point of connection for all premises services to the telecommunications network.

NETWORK TERMINATING WIRE - Wire installed for network service for a specific customer and used to connect the intrabuilding network cable or the outside plant distribution facilities to the Network Interface.

NEW SUBSCRIBER - Applicants having no basic monthly service or those subscribers changing service premises.

NONLISTED TELEPHONE - An exchange station which has the listing omitted from the telephone directory but listed in the directory assistance records.

NONPUBLISHED TELEPHONE - An exchange station which has the listing omitted from both the telephone directory and directory assistance records at the customer's request.

PREMISES - The building, portion or portions of a building on continuous property used and for occupied at one time by the customer in the conduct of his business or as a residence. Where floor space adjoining buildings is made continuous at one or more floor levels, all floor space in both buildings is considered the same premises insofar as the customer who uses and occupies such continuous floor space is concerned, the two buildings otherwise being considered as separate buildings.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
original Sheet 11

S26. DEFINITIONS (Cont'd)

PREMISES WIRE - All wiring within the same building or between buildings on the same continuous property of a customer and located on the customer's side of the network interface. In the absence of a network interface, all wiring on the customer's side of the first point of connection at a customer's premise. Work performed to install and maintain premises wire will be performed on a deregulated basis effective January 1, 1987 pursuant to the FCC's Second Report and Order cc Docket No.79-105.

PRIVATE BRANCH EXCHANGE SERVICE - An arrangement of equipment consisting of switching apparatus with attendant's telephone, trunks to a central office and stations connected with the switching apparatus, providing for intercommunication between these stations and communication with the general exchange and interexchange systems. Throughout this Price List, the commonly used abbreviation "P.B.X." will be substituted for the words Private Branch Exchange. Effective November 1, 1987, Company provided switching equipment and stations will be provided on a deregulated basis.

PRIVATE BRANCH EXCHANGE TRUNK - A circuit connecting a private branch system with a Central Office.

PRIVATE LINE - A circuit provided to furnish communication between two or more instrumentalities directly connected to it. such instrumentalities do not have access to the general exchange and interexchange networks.

PUBLIC TELEPHONE - An exchange station, either attended or equipped with a coin collecting device, designed and placed for use by the public in general at locations chosen or accepted by the Company.

REGRADE - A change in the classification of service.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 12

DEFINITIONS (Cont'd)

RESIDENCE SERVICE -Telephone service furnished to customers when the actual or obvious use is for domestic purposes.

RESTORATION CHARGE - A charge applying to restore service following a temporary suspension of such service for nonpayment of charges.

ROTARY HUNTING - Routes a call to an idle station line in a prearranged group when the called station line is busy.

- a. Terminal - The hunt always starts with the called station line and ends with the last station line in the prearranged group completing the call to the first idle station line encountered. Unless the first station line is called, only a portion of the group is tested.
- b. circular Hunting - The hunt starts with the called station line and always proceeds in a prearranged order to test all lines in the group once, completing the call to the first idle station line.

SEMIPUBLIC TELEPHONE - An exchange station, equipped with a coin collecting device, designed for a combination of customer and public use at locations more or less public in character. Semipublic telephone service is considered as a form of customer service. Effective November 1, 1987, semipublic telephone equipment will be provided on a deregulated basis.

SERVICE CHARGE - A nonrecurring charge applying to the establishment of telephone service for a subscriber and subsequent alterations to that service.

SERVICE ORDER CHARGE - The charge for receiving and recording information and for taking action in connection with a subscriber or applicant and processing the necessary data.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 13

S26. DEFINITIONS (Cont'd)

SUBSCRIBER- See "Customer".

SUBURBAN AREA - The territory surrounding the base rate area and for special rate area in which suburban and rural services are furnished at established rates, plus zone charges.

SWITCH - A unit of dial switching equipment which provides interconnection between station lines or trunks.

PRICE LIST - The rates, charges, rules and regulations adopted and filed by theft.

TELEPHONE COMPANY- See "Company".

TELEPHONE NUMBER - A designation assigned to a telephone station or private branch exchange necessary for placing calls to the telephone station or private branch exchange for identification in the assessment of message charges, etc.

TOLL CALL - A call to a point outside the local calling area of an exchange for which a long distance charge applies.

TERMINAL EQUIPMENT - All equipment provided by common carriers and located on customer premises except over voltage protection equipment, coin-operated or pay telephones, and multiplexing equipment to deliver multiple channels to the customer. Mobile radio equipment transmit earth stations are also not considered to be terminal equipment. Effective November 1, 1987, all terminal equipment is provided on a nonregulated basis.

TERMINATION CHARGE - A charge applying when a customer discontinues an item of service or equipment prior to the expiration of the initial service period designated for such item.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 14

S26. DEFINITIONS (Cont'd)

TIE LINE - A circuit connecting two private branch exchange systems for the purpose of interconnection between the stations connected with such systems.

TIE LINE MILEAGE - The measurement on which the rates for tie lines connecting customer's switchboard is based.

TOLL CENTER - A telephone switching center at which the operations (manual or dial) function (message timing, switching, and recording) takes place in connection with the provision of toll message service.

TOLL LINE - A circuit used exclusively for the transmission of messages between points located in different exchange areas where specific charges for each such message are applicable.

TOLL MESSAGE - A message between stations in different exchange areas and furnished under the provisions of "Message Toll Telephone Service", Section 4.

- A. PERSON TO PERSON TOLL MESSAGE - a toll message in which the user stipulates a desire for communication with a specified person or station at a specified location.
- B. STATION TO STATION TOLL MESSAGE - A toll message in which the user stimulates a desire for communication only with a specified telephone or switchboard.
- c. COLLECT MESSAGE - A toll message in which the user stipulates that the called party accept and pay all charges associated with the message.
- D. THIRD NUMBER MESSAGE - A toll message in which associated charges are billed neither to the calling station nor to the called station, but rather to a station not involved in the message.

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 15

S26. DEFINITIONS (Cont'd)

- E. CREDIT CARD MESSAGE - A toll message in which associated charges are billed to a credit card number assigned by a telephone company and issued to either the called or calling party.

TOLL RATE - The initial period charge prescribed for toll messages based upon a minimum initial period and distance between exchanges.

TOLL SERVICE - Toll Service (Long Distance Service) is that part of the total telephone service rendered by the Company which is furnished between customers in different exchange areas in accordance with the rates and regulations specified in the Company's Toll Price List.

TOUCHTONE CALLING SERVICE - A classification of exchange service whereby calls are originated through the use of pushbuttons in lieu of rotary dials.

TRUNK LINE - A circuit over which customer's messages are sent between two central offices or between a central office and a private branch exchange system.

UNDERGROUND SERVICE CONNECTION - A customer's "drop" wire which is run underground from a pole line or an underground distributing cable.

WATS ACCESS - Provides for termination of WATS access line.

WIDE AREA TELECOMMUNICATIONS SERVICE - The furnishing of facilities for dial type telephone communications between a wide area service access line and other exchange telephones in the area prescribed in the Price List.

ZONE - One of a series of specified areas, beyond the base rate area of an exchange in which service is furnished at rates in addition to base rates,

GENERAL SUSBCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 26
Original Sheet 16

S26. DEFINITIONS (Cont'd)

ZONE BOUNDARY - The limit of a specified area beyond the base rate area of an exchange.

ZONE CHARGES - A charge a plying in addition to the base rate for service when a subscriber's main station, PBX, or Centrex system is outside the base rate area but is located within the exchange area.

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 27
Original Sheet 1

S27. DIRECTORY LISTINGS

S27.1 General

- A. Directory listings encompassed by this Price List are applicable to listings in the alphabetical section in the telephone directory covering the exchange from which such customers receive service.

S27.2 CONDITIONS

- A. Primary listing which may include the name, address, and telephone number of the individual, organization, firm or corporation for whom the service has been contracted will be furnished without additional charge,
 - 1. Listings will be limited to such information as is necessary for identification to facilities use of the service.
 - 2. The length of a listing may be limited by the use of abbreviations where the clarity of the listing and the identification of the customer will not be impaired.
 - 3. The Company may refuse to insert any listing, which in its judgment does not facilitate the use of the directory.
- B. An additional listing may include the same address and telephone number as the primary listing, except that a different address may be shown for off-premises stations located on other premises occupied solely by the customer. Additional listings may be furnished with business who occupy the same premises at the rates shown above. (See Joint Use of Service).

GENERAL SUBSCRIBER SERVICES PRICE LIST

Ardmore Telephone Company

Section 27
Original Sheet 2

S27. DIRECTORY LISTINGS

S27.2 CONDITIONS

- C. An alternate call listing refers to a calling party to certain other telephone numbers after business hours or on Sundays or holidays of if there is no answer on the first listed number. Where the alternate call number is to be that of another customer, the listing will be furnished only with written approval of the other customer.
- D. A foreign or noncustomer listing may be furnished customers requesting that their listing be included in a directory of an exchange other than that from which service is rendered. The rate or a foreign company listing will be the rate applicable in the directory where the listing appears.
- E. Unlisted service is the withholding of a customer's listing from the printed telephone directory. The number may be obtained from the information operator.
- F. Nonpublished service is the withholding of a customer's listing from both the telephone directory and information records.
 - a. When nonpublished service is to be furnished, the customer will hold the Company harmless from any damages which might arise, and will absolve the Company from any responsibility for the failure of the customer to receive calls because of the nonpublished listing.
 - b. The rate for nonpublished service is specified above.

Ardmore Telephone Company

Section 27
Original Sheet 3

S27. DIRECTORY LISTINGS

S27.2 CONDITIONS

- G. The charge for additional, alternate unlisted or unpublished listings begin on the day the information records are posted.
- H. The length of contract period for directory listings, where the listing actually appears in the directory, is the directory period. The directory period is from the day on which the directory is distributed to the customers to the day the succeeding directory is distributed to the customers. Unless the listing no longer serves the customer because of disconnection, removal, etc., of the service, the minimum contract period will be for 30 days.
- I. A dual name listing consists of a surname, two given names, the address and telephone number. A dual name listing may be provided for residence subscribers when either the two names listed are those of persons sharing the same surname and live at the same address or the two names listed are those of one person known by both names. This listing may be a primary listing of an additional listing provided at the Price Listed rates.
- J. customized Number Listing provides for the listing of a customer requested telephone number that is in alpha format.
