

LYNX Touch 5200

All-in-One Home Control System

Honeywell

SECURITY, AUTOMATION, ENERGY SAVINGS AND
CONVENIENCE IN ONE ECONOMICAL SYSTEM

In Touch With Your Lifestyle

Welcome to Your **Connected Home**

Honeywell's lifestyle-enhancing LYNX Touch all-in-one home control system lets you control your security system, home automation functions, view video and more—all from one brilliant, full-color touchscreen. It can even keep you connected to your family and home whether you're across the street or across the world. No other system can touch it!

Brilliant, Full-Color Touchscreen

- Crystal-clear, full-color 4.7" touchscreen simplifies operation with graphics and menu-driven prompts
- Icons and words are large, clear and easy-to-read
- Two dedicated keys for easy access to the home screen and emergency functions

On-Premises Video Viewing

You can view video right on the full-color touchscreen¹ or anywhere on premises on your smartphones, tablets and other Wi-Fi[®] enabled devices—a great way to keep an eye on your family and home!

Home & Energy Management

You can control and automate your thermostats, garage doors, lights, locks and water valves directly at the LYNX Touch display, around your home via Wi-Fi enabled devices or remotely when using Honeywell Total Connect™ Remote

Services. You can even set scenes, use the sunrise/sunset feature or randomize lights for a lived-in look while you're away!

Mobility at Home

Our LYNX Connect App² lets you use your Wi-Fi enabled iOS or Android™ devices for easy, on-premises system control and video viewing.

Garage Door Control

Control up to three garage doors³ and know whether they're opened or closed right from the touchscreen, on your mobile devices or remotely with Honeywell Total Connect. You can close the door if it is left open accidentally, schedule it to close after a specified period of time or at a certain time every night. You can even arm the system when the garage door is open—helping to avoid false alarms.

Two-Way Voice

The optional two-way voice feature lets central station operators listen in and talk to you when an alarm signal is received⁴—ensuring that the proper response personnel can be dispatched to your home should the need arise.

Honeywell Total Connect Remote Services

- Control your security system and home automation functions, view live video and receive email and video notifications anywhere in the world on mobile devices
- Get location-based weather, traffic and news delivered right to the touchscreen
- Get tornado alerts delivered automatically to the touchscreen based on your zip/postal code

Connect to the possibilities today! Contact your security professional to custom-design a system with options that work for your lifestyle and budget.

¹One camera displayed on the touchscreen using compatible Honeywell Total Connect cameras.

²App available for a nominal fee in the Apple® iTunes® App Store or Google Play Store.

³Additional equipment required. Not compatible with certain garage doors and garage door openers. Garage door control must have working entrapment protection. Contact your security professional for details.

⁴Excluding fire or carbon monoxide alarms.
